About this Release

[Contents](#)

### ABOUT THIS RELEASE

Brings together a range of ABS and non-ABS data to provide economic, social and demographic indicators for Tasmania, its regions and Local Government Areas. As well as enabling comparison between regions, some data are also presented as a time series. Included are indicators on population, labour force, welfare recipients, education, crime, health, agriculture, housing and construction, transport, income and tourism. Commentary and reference maps complement the statistical data presented.

[About this Release](#)

[Contents](#)

[Contents](#) >> Regional Summary

This Regional Summary brings together a wide range of social and economic indicators for Tasmania and its three regions.

The Regions referred to in the Regional Summary are aligned to Statistical Region Sectors and are part of the Statistical Region Structure outlined in the [Australian Standard Geographical Classification \(ASGC\) 2001](#). The three Regions are the Greater Hobart-Southern, the Northern and the Mersey-Lyell Regions. These Regions are areas characterised by discernible social and/or economic characteristics and influenced by one or more major cities or towns.

### FURTHER INFORMATION

[About this Release](#)

[Contents](#)

[Contents](#) >> [Regional Summary](#) >> Regional environmental indicators

The following table presents key environmental indicators for Tasmania and its three Statistical Region Sectors.

### REGIONAL ENVIRONMENTAL INDICATORS(a)(b)

	Unit(c)	Greater Hobart- Southern	Northern	Mersey-Lyell	Tasmania
Total land area	km <sup>2</sup>	25,991	19,852	22,580	68,423
Population density(d)	no./km <sup>2</sup>	9.0	6.7	4.7	6.9
Total rateable land, 2003(e)	km <sup>2</sup>	11,570	11,590	5,714	28,874
Rateable land, residential, 2003	km <sup>2</sup>	871	555	301	1,727
Rateable land, primary production, 2003	km <sup>2</sup>	9,109	10,159	4,941	24,210
Population per rateable residential area, 2003(d)(e)	no./km <sup>2</sup>	267	241	353	274
Area of agricultural holding, 2001(f)(g)	km <sup>2</sup>	7,422	8,408	3,237	19,068
Gross value of agricultural production per area of agricultural holding(h)	\$'000/km <sup>2</sup>	21	33	97	40
National parks, May 2003	km <sup>2</sup>	7,787	1,382	5,166	14,335

(a) Regions referred to in this table are Statistical Region Sectors and are part of the Statistical Region Structure outlined in the [Australian Standard Geographical Classification \(ASGC\) 2001](#)

(b) Due to rounding, sums of components may differ from totals.

(c) One square kilometre (km<sup>2</sup>) equals 100 hectares.

(d) Population as at 30 June 2002.

(e) Rateable properties only as at May.

(f) Year ended 30 June.

(g) Includes units with an Estimated Value of Agricultural Operations (EVAO) of \$5,000 or more.

(h) Production data for 2000-01 financial year.

(i) Excludes forest reserves.

(j) Land tenure data in this table may differ from data in other tables because of the date it was accessed: the constant refinement of Geographic Information System (GIS) processes results in frequent, minor changes to land tenure data.

### REGIONAL SOCIAL INDICATORS(a)(b)

	Unit	Greater Hobart- Southern	Northern	Mersey-Lyell	Tasmania
<b>Demography(c)</b>					
Estimated resident population - p2003(d)					
Persons aged 0-14 years	no.	47,012	27,684	22,615	97,311
Persons aged 15-64 years	no.	155,219	87,992	69,029	312,240
Persons aged 65 years or older	no.	32,663	19,391	15,472	67,526
Total	no.	234,894	135,067	107,116	477,077
Estimated resident population - p 2002(d)	no.	232,576	133,644	106,392	472,612
Estimated resident population - 1998(d)	no.	230,374	133,086	108,507	471,967
Births - 2002					
	no.	3,013	1,636	1,334	6,003

Deaths - 2002	no.	1,930	1,143	897	3,979
Population projection 2006 - Series A(f)	no.	232,330	134,302	107,911	474,543
Population projection 2011 - Series A(f)	no.	235,310	135,144	107,516	477,970
<b>Education</b>					
Persons with a postgraduate, graduate or bachelor degree(g)	no.	21,561	8,842	4,732	(e)35,248
Persons with an advanced diploma or Certificate(g)	no.	35,328	20,248	16,382	(e)72,206
Full-time government school students - 2002	no.	28,454	18,091	14,963	61,508
Full-time non-government school students - 2002	no.	12,041	4,962	3,839	20,842
<b>Welfare(h)(i)(j)</b>					
Recipients of Newstart Allowance(k)	no.	10,674	6,104	5,376	22,154
Recipients of Age Pension	no.	22,615	14,266	11,615	48,496
Recipients of Disability Support Pension	no.	10,657	5,527	5,456	21,640
<b>Health</b>					
Hospital separations(l)(m)	no.	75,790	41,100	27,000	153,421
Crude death rate(n)	rate(o)	788	862	828	822
Occupied hospital bed days(p)	no.	314,105	162,852	96,958	573,915
<b>Crime, victims of selected offences - 2002</b>					
Assaults	no.	1,669	1,157	811	3,637
Unlawful entry with intent	no.	3,856	1,893	1,661	7,410
Motor vehicle theft	no.	1,684	555	255	2,494

p preliminary figure or series subject to revision

(a) Regions referred to in this table are Statistical Region Sectors and are part of the Statistical Region Structure outlined in the [Australian Standard Geographical Classification \(ASGC\) 2001](#).

(b) Due to rounding, sums of components may differ from totals.

(c) These figures have subsequently been revised at the state level, but the updated figures are not available at the regional level.

(d) As at 30 June.

(e) Includes offshore areas and migratory Statistical Division.

(f) The ABS has produced three population projection series for Tasmania, A, B and C, each of them based on different hypothetical assumptions and scenarios. For more detail see Population Projections, Tasmania (cat. no. 3222.6).

(g) As at 7 August 2001.

(h) As at 1 June 2001.

(i) Data have been aggregated to local government areas from postcode data supplied by Centrelink. Consequently, some figures have been rounded.

(j) Small area data in this table has been confidentialised. Totals for Tasmania may differ to those published in Statistics - Tasmania.

(k) Includes Newstart Mature Age Allowance.

(l) A separation refers to a hospital transfer, discharge or death.

- (m) 2000-01.
- (n) 2001.
- (o) Per 100,000 persons.
- (p) 2001-02.

[Contents](#) >> [Regional Summary](#) >> Regional economic indicators

The following table presents key economic indicators for Tasmania and three regions.

### REGIONAL ECONOMIC INDICATORS(a)

	Unit	Greater Hobart- Southern	Northern	Mersey-Lyell	Tasmania
<b>Labour force, 2003-04</b>					
Employed (annual average)	no.	104,800	60,500	44,800	(b)210,100
Unemployed (annual average)	no.	7,000	5,100	3,500	(b)15,600
Unemployment rate (annual average)	%	6.2	7.8	7.2	(b)6.9
Participation rate (annual average)	%	59.0	60.9	56.6	(b)59.0
<b>Wage and salary earners, 1999-2000</b>					
Wage and salary earners	no.	81,378	45,546	36,050	(c)163,623
Mean annual individual taxable income(d)	\$	31,379	29,724	30,081	30,640
Total annual individual taxable income(e)	\$m	2,553.6	1,353.8	1,084.4	5,013.4

**Housing and construction, 2001-02**

Number of new residential building approvals(f)	no.	1,097	637	298	2,032
Value of new residential building approvals	\$m	150.8	79.4	42.5	272.7
Value of non-residential building approvals	\$m	91.7	42.3	34.0	168.0
Residential property sales(g)(h)	no.	8,297	4,389	3,298	15,984
<b>Tourist accommodation, 2003(i)</b>					
Establishments	no.	60	39	44	143
Persons employed	no.	2,075	1,241	928	4,244
Takings	\$m	72.5	31.1	24.3	127.8
<b>Transport</b>					
Registered passenger vehicles(j)	no.	123,956	69,897	52,268	(k)246,422
Total registered vehicles(j)	no.	163,195	96,688	74,724	(k)335,057
Drivers' licences(l)	no.	164,423	95,439	75,923	(m)336,230
Fatalities(n)	no.	16	15	5	36
Injuries(n)	no.	888	525	413	1,826
<b>Agriculture, 2000-01</b>					
Gross value of agricultural production	\$m	159.3	280.6	315.1	755.0

(a) Regions referred to in this table are Statistical Region Sectors and are part of the Statistical Region Structure outlined in the [Australian Standard Geographical Classification \(ASGC\) 2001](#).

(b) Differences between the aggregation of regions and state-level totals may vary due to the annual average methodology used.

(c) Includes region unclassified.

(d) Mean annual individual taxable income refers to the sum of incomes from all sources as reported on wage and salary earners income tax returns for the financial year divided by the number of wage and salary earners.

(e) Total annual individual taxable income refers to the gross income from all sources for all wage and salary earners as reported on wage and salary earners income tax returns for the financial year.

(f) Includes conversions and dwellings units approved as part of alterations and additions or the construction of non-residential buildings.

(g) May include sales from previous period and exclude sales from current period due to lags in processing.

(h) Excludes details of property splits due to subdivision and strata titling.

(i) Includes hotels, motels, guest houses and serviced apartments with 15 or more rooms or units.

(j) As at 31 March 2002.

(k) Total includes vehicles registered in Tasmania and located interstate. As a result discrepancies occur between the sum of individual components and totals.

(l) As at 1 January 2003.

(m) Total includes current licences where the residential address is interstate/overseas. As a result discrepancies occur between the sum of individual components and totals.

(n) Location of accident.

Tasmanian agriculture consists of many farm establishments undertaking an array of farming activities in Tasmania and its regions. The Greater Hobart-Southern Region, the Northern Region and the Mersey-Lyell Region of Tasmania provide farmers with the conditions, rich soil, temperate climate and reliable rainfall, to develop Tasmania's agricultural sector.

The major agricultural activities in Tasmania are:

- beef farming - mainly in the Northern and Mersey-Lyell Regions of Tasmania
- milk cattle farming - mainly in the Northern and Mersey-Lyell Regions of Tasmania
- sheep farming - mainly in the Greater Hobart-Southern and Northern Regions of Tasmania
- vegetable production - mainly in the Northern and Mersey-Lyell Regions of Tasmania
- fruit production - mainly in the Greater Hobart-Southern Region of Tasmania.

[Contents](#) >> [Agriculture](#) >> Establishments

The Mersey-Lyell Region continues to have Tasmania's largest number of agricultural establishments, (farm) with 37.9% of the state's 4,286 farms in 2000-01. This was followed by the Northern Region, with 35.8% of all farms, and the Greater Hobart-Southern Region, with 26.3%.

The Northern Region had Tasmania's largest area of holding, (farm size) in 2000-01, with 840,809 hectares or 44.1% of the state's total of 1,906,759 hectares. The Greater Hobart-Southern Region had 742,247 hectares, 38.9% of Tasmania's total, and the Mersey-Lyell Region had 323,703 hectares, 17.0% of the total.

The Greater Hobart-Southern Region had the largest average farm size, in 2001, with 659.2 hectares. This was followed by the Northern Region, with an average farm size of 548.1 hectares and the Mersey-Lyell Region with 199.1 hectares. The Tasmanian average farm size was 444.9 hectares in 2001.

[Contents](#) >> [Agriculture](#) >> Gross value of agricultural production

In 2000-01, agricultural establishments in the Mersey-Lyell Region made the most valuable contribution to Tasmania's gross value of production, contributing 41.7% (\$315.1 million) of the state's production. The major contributor to the gross value of production in the Mersey-Lyell Region was crops (including pastures, grasses and fruit), which contributed 48.5% of the region's total gross value of production.

In 2000-01, the Northern Region contributed 37.2% (\$280.6 million) of Tasmania's gross value of production. Crops (including pastures, grasses and fruit) accounted for 40.5% of the gross value of production for the Northern Region, and livestock 37.0%.

The Greater Hobart-Southern Region contributed 21.1% (\$159.3 million) of Tasmania's gross value of production in 2000-01, with crops contributing 52.4% of the region's total production.

**Pome fruit** - Apples dominate Tasmanian fruit production. Some 56,105 tonnes were produced in the state during 2000-01, with 75.3% (42,269 tonnes) being grown in the Greater Hobart-Southern Region.

**Stone fruit** - The Tasmanian production of stone fruit increased substantially between 1996-97 and 2000-01. The largest increase occurred in the production of cherries, with the state's output increasing by 253.0% to 653 tonnes in 2000-01. The state's largest increases in stone-fruit production were in the Greater Hobart-Southern Region, where cherry production increased by 377.4%, peaches by 272.7%, nectarines by 113.3% and apricots by 45.1%.

**Berry fruit - Black currants** are the main berry fruit produced in Tasmania. In 2000-01, some 97.3% of the crop was produced in the Greater Hobart-Southern Region. Some 72.6% of Tasmanian **blueberry** production in 2000-01 was in the Northern Region, where production increased between 1996-97 and 2000-01 by 103.8% (from 26 tonnes to 53 tonnes). Some 93.8% of Tasmanian **strawberry** production was in the Greater Hobart-Southern Region, where production increased by 145.2% (from 93 tonnes to 228 tonnes).

Tasmania's production of vegetable crops is dominated by potatoes, carrots, green peas and onions (white and brown). The Mersey-Lyell Region is the main vegetable producing region in Tasmania, followed by the Northern Region.

**Potatoes** - Potatoes dominated vegetable production in 1996-97 and 2000-01, with most being grown in the Mersey-Lyell Region: 62.3% of Tasmanian production in 2000-01.

**Carrots** - The Mersey-Lyell Region produced 83.9% of Tasmania's 40,526 tonnes of carrots in 2000-01.

**Green peas** - The Northern Region produced 61.9% of Tasmania's 52,865 tonnes of green peas in 2000-01. Between 1996-97 and 2000-01, production decreased in the Greater Hobart Southern Region and the Mersey-Lyell Region, by 66.1% and 23.0% respectively, whereas production increased in the Northern Region, by 14.0%.

**Onions** - The Mersey-Lyell Region produced 68.3% of Tasmania's 42,215 tonnes of onions in 2000-01.

Cattle, sheep and lambs, pigs, and chickens for egg production are some of the livestock produced in Tasmania. A large proportion of the production of cattle for meat and milk was centred in the Mersey-Lyell Region (50.8%) and the Northern Region (39.2%) in 2000-01.

In 2000-01, most of Tasmania's pig production, 73.3%, and sheep and lamb production, 52.7%, was in the Northern Region.

In 2000-01, most of Tasmania's chickens for egg production, 54.9%, was in the Greater Hobart-Southern Region, followed by the Northern Region, 35.3%.

**Crops and pastures for hay** - Tasmanian crop and pasture production is dominated by the production of pastures for hay. In 2000-01, the Northern Region produced 44.1% (121,881 tonnes) of the state's total pasture production, followed by the Mersey-Lyell Region, 37.3% (103,237 tonnes), and the Greater Hobart-Southern Region, 18.6% (51,524 tonnes).

**Broadacre crops** - Barley and wheat were the main broadacre crops grown in Tasmania in 2000-01, with 25,992 and 25,554 tonnes produced respectively. Tasmanian production of **barley** decreased by 26.2% from 1996-97 to 2000-01, with decreases in each region: the Mersey-Lyell Region, by 58.0%; the Northern Region, by 28.7%; and the Greater Hobart-Southern Region, by 6.1%. In the same period, Tasmanian **wheat** production increased by 238.5%, with production increasing in each region. Some 83.8% (21,405 tonnes) of Tasmania's wheat in 2001 was grown in the Northern Region.

**Legumes for grain** - The production of legumes for grain remained steady between 1996-97 and 2000-01. Field pea production dominated in the Greater Hobart-Southern and Northern Regions, with 96.4% of Tasmania's total production for 2000-01. Lupin production in the Northern and Mersey-Lyell Regions contributed over 99% of Tasmania's production for 2000-01.

Between the 2001 and 2002 seasons, the number of Tasmania's vineyards increased by 9.1%, from 143 to 156. In 2002, some 26.9% of the state's vineyards were located in the Tamar Valley wine region and 24.4% in the Coal Valley wine region.

There were 108 vineyards in Tasmania in the 2002 season that were less than 5 hectares. Of these, 25.9% were located in the Coal Valley wine region, 18.5% in the Tamar Valley wine region and 17.6% in the Huon/Channel wine region. In 2002, some 44.0% of Tasmania's vineyards that were more than 10 hectares were located in the North East wine region.

The number of planted vineyard hectares in Tasmania increased by 7.2% from 851 hectares in the 2001 season, to 912 hectares in the 2002 season. In 2002, the Tamar Valley wine region had the largest area of planted vineyard hectares with 32.7% (298 hectares) followed by the North East wine region with 26.9% (245 hectares) and the Coal Valley wine region with 21.8% (199 hectares).

Tasmania faces a number of challenges in providing effective services to meet the needs of the community. These arise from the:

- small and decentralised population
- changing demographic structure (in particular, the ageing of the population)
- changing workforce.

Relatives, friends and volunteers provide a major part of the assistance needed, while government, commercial and private non-profit sources provide additional support.

### AGED CARE

[The Tasmanian Department of Health and Human Services, Aged care services](#), support older Tasmanians either in residential aged care or in their own homes.

For regional statistics, see [Aged care](#) on this web site (under Regional Statistics - Tasmania).

### DISABILITY SERVICES

[The Tasmanian Department of Health and Human Services, Disability services](#), support those with disabilities and their carers with services that include accommodation support, community support, community access and respite services.

For regional statistics see [Disability support services](#) on this web site (under Regional Statistics - Tasmania).

[Contents](#)

[Contents](#) >> [Community and safety services](#) >> [Tasmania Fire Service](#) >> Vegetation burnt

The total area of vegetation burnt in Tasmania in 2003-04 was 111,371 hectares. This was a substantial increase from the 56,484 hectares burnt in 2002-03. Much of the area burnt (71,194 hectares) can be attributed to Mt Frankland and Mt Donaldson fires in the North West Region.

Of the vegetation burnt in Tasmania in 2003-04, 75.3% was located in the North West Region, 18.2% in the Northern Region, and 6.4% in the Southern Region.

### VEGETATION BURNT, Tasmanian regions(a)

### VICTIMS OF CRIME

- **Robbery and unlawful entry with intent** - Between 2001 and 2002, all three Regions recorded decreases in the rate of robbery victims and victims of unlawful entry with intent. In both 2001 and 2002, the Greater Hobart-Southern Region recorded the highest victimisation rate for these crimes.
- **Age and sex of victims** - The 2002 age and sex breakdowns show that in all three Regions the majority of assault victims were male, the majority of sexual assault victims were female, and that the numbers of both male and female victims of assault were highest in the 25-34 years age group.

### COMPLAINTS TO THE OMBUDSMAN

- In 2001-02, the Office of the Tasmanian Ombudsman closed the greatest number of complaints about the administrative actions of local government authorities in the Greater Hobart-Southern Region, followed by the Northern Region and then Mersey-Lyell.
- The Mersey-Lyell Region had the highest proportion of claims closed due to no defective administration and also the highest proportion of claims substantiated or partly substantiated.

### LEGAL AID

- Of the 25,746 legal advice calls made to the Legal Aid Commission of Tasmania in 2002-03, some 50.4% were made in Hobart and Southern Tasmania, 30.3% in Launceston and North Eastern Tasmania and 19.2% in the North West and West Coast of Tasmania.

[Contents](#) >> [Crime and justice](#) >> Victims of crime by selected offences

**Assault** - Between 2001 and 2002, Tasmania recorded an increase in victims of assault with the rate per 100,000 persons rising from 739.3 to 769.4. In 2002, the Northern Region again recorded the highest rate of assault with 866.1 victims per 100,000 persons, followed by Mersey-Lyell with 762.1 and the Greater Hobart-Southern Region with 717.2.

**Sexual assault** - The rate of sexual assault victims per 100,000 persons in Tasmania increased from 43.7 in 2001 to 51.2 in 2002. In both years, the Greater Hobart-Southern Region recorded the lowest rate (39.2 in 2001 and 43.0 in 2002) and the Mersey-Lyell Region recorded the highest rate (53.4 in 2001 and 68.6 in 2002).

**Robbery** - The rate of robbery victims for Tasmania decreased from 40.5 to 29.0 per 100,000 persons between 2001 and 2002, due to a decrease in all regions. In 2001 and 2002, rates of robbery victimisation were highest in the Greater Hobart-Southern Region.

**Unlawful entry with intent** - Between 2001 and 2002, the rate of victims of unlawful entry with intent for Tasmania decreased from 1,962.1 per 100,000 persons to 1,567.5 per 100,000 persons, reflecting a decrease in all regions. In both years, the highest rate was recorded in the Greater Hobart-Southern Region.

**Motor vehicle theft** - Victims of motor vehicle theft state-wide decreased from a rate of 734.0 per 100,000 persons in 2001 to 527.6 per 100,000 persons in 2002. Of the three regions, the Greater Hobart-Southern Region recorded the highest victimisation rate for this crime in 2001 and 2002 (1,023.1 and 723.6 respectively).

**Other theft** - The rate of victims of other theft for Tasmania decreased from 2,830.5 per 100,000 persons in 2001 to 2,760.2 per 100,000 persons in 2002. The Greater Hobart-Southern Region and the Northern Region recorded decreases in the victim rates of this crime, whilst the Mersey-Lyell Region recorded an increase from 2,429.2 in 2001 to 2,743.0 in 2002.

**VICTIMS OF SELECTED OFFENCES(a), Rate (per 100,000 persons): Tasmanian regions**

[Contents](#) >> [Crime and justice](#) >> Victims of crime by age and sex

The age and sex breakdowns of victims of crime in Tasmania for 2002 show that 58.0% of assault victims and 59.5% of individual robbery victims were male, while 84.3% of sexual assault victims were female.

In 2002, all three Regions recorded proportions of male victims of assault similar to the Tasmanian proportion, with the Greater Hobart-Southern recording 58.6%, the Northern Region 58.1% and Mersey-Lyell 58.1%. The Mersey-Lyell Region recorded the highest proportion of individual robbery victims who were male, recording 75.0%, compared to 62.5% in the Northern Region and 54.1% in the Greater Hobart-Southern Region. The Greater Hobart-Southern Region recorded the highest proportion of sexual assault victims who were female, with 89.0%, compared to 84.3% in Mersey-Lyell and 79.7% in the Northern Region.

For all three Regions the numbers of both male and female victims of assault were highest in the 25-34 years age group. Female victims of sexual assault were most numerous in the 20-24 years age group in the Greater Hobart-Southern Region, compared to the 15-19 years age group in the Northern and Mersey-Lyell Regions.

In 2001-02, the Office of the Tasmanian Ombudsman closed 194 complaints about the administrative actions of local government authorities. This was a 22.8% increase from the 158 complaints closed in 2000-01, and a 7.2% increase from the 181 complaints closed in 1999-2000.

In 2001-02, the Greater Hobart-Southern Region recorded the greatest number of complaints closed with 106, representing 54.6% of all complaints closed in the state, followed by the Northern Region with 46 (23.7%) and then Mersey-Lyell with 42 (21.7%). The Mersey-Lyell Region had the highest proportion of claims closed due to no defective administration (35.7%) and the highest proportion of claims substantiated or partly substantiated (11.9%).

In 2001-02, the Office of the Tasmanian Ombudsman closed 106 complaints about the administrative actions of local government authorities in the Greater Hobart-Southern Region.

The majority of complaints in the Greater Hobart-Southern Region were closed due to no defective administration (36 complaints, representing 34.0% of total complaints closed), followed by discontinuation, withdrawal or lapse (30 complaints, representing 28.3% of total complaints closed). Some 12 complaints were substantiated or partly substantiated, representing 11.3% of total complaints closed.

In 2001-02, the Clarence local government area recorded the greatest number of complaints closed with 21 complaints, representing 19.8% of all complaints closed, followed by Hobart with 19 complaints (17.9% of all complaints closed) and then Kingborough with 14 complaints (13.2% of all complaints closed).

In 2001-02, the Office of the Tasmanian Ombudsman closed 46 complaints about the administrative actions of local government authorities in the Northern Region.

The majority of complaints in the Northern Region were closed due to the ombudsman declining to investigate (19 complaints representing 41.3% of total complaints closed), followed by no defective administration (11 complaints representing 23.9% of total complaints closed) and discontinuation, withdrawal or lapse (10 complaints representing 21.7% of total complaints closed). Some 4 complaints were substantiated or partly substantiated, representing 8.7% of total complaints closed.

In 2001-02, the Launceston local government area recorded the greatest number of complaints closed (13 complaints representing 28.3% of total complaints closed), followed by Meander Valley with 7 complaints (15.2% of total complaints closed) and then Northern Midlands with 6 complaints (13.0% of total complaints closed).

### COMPLAINTS TO THE OMBUDSMAN, By closure reason(a): Northern Region - 2001-02

No defective administration	Substantiated (b)	Declined to investigate (c)	Discontinued (d)	Out of jurisdiction	Total
--------------------------------	----------------------	-----------------------------------	---------------------	------------------------	-------

In 2001-02, the Office of the Tasmanian Ombudsman closed 42 complaints about the administrative actions of local government authorities in the Mersey-Lyell Region.

The majority of complaints in the Mersey-Lyell Region were closed due to no defective administration (15 complaints representing 35.7% of total complaints closed), followed by discontinuation, withdrawal or lapse (13 complaints representing 31.0% of total complaints closed). Some 5 complaints were substantiated or partly substantiated, representing 11.9% of total complaints closed.

In 2001-02, the Central Coast local government area recorded the greatest number of complaints closed (10 complaints representing 23.8% of total complaints closed), followed by the West Coast (9 complaints representing 21.4% of total complaints closed).

### ATTENDANCE AT CULTURAL ACTIVITIES

About 4 in 5 Tasmanians aged 18 years and over attended at least one of the cultural venues or events (e.g. cinemas, libraries, museums, theatre performances and concerts) included in a 2002 ABS survey. Attendance rates varied little between the three [Tasmanian Regions](#):

- Greater Hobart-Southern Region, 85.8%
- Northern Region, 82.6%
- Mersey-Lyell Region, 83.2%
- Tasmania, 84.3%.

[Tasmania: what's on](#) provides links to information about what's on in Tasmania and when (e.g. clubs, associations, events, galleries, museums, markets, news, night-life; includes a link to an events calendar).

### HERITAGE

At June 2005, the Hobart local government area had the highest number of places listed on the Register of the National Estate of any local government area in the state (269, of which 266 were historic listings). Circular Head had 11 indigenous places, the highest in the state. Flinders Island holds the highest number of natural places with 26 listings.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Culture and heritage](#) >> Attendance at cultural activities

During the 12 months before interview in 2002, about 84% of Tasmanians aged 18 years and over (290,800 people) attended at least one of the cultural venues or events included in an ABS survey. The rate of people attending at least one venue or event varied little between the three Tasmanian Regions. The highest attendance rates in all three Regions were for people attending cinemas.

Attendance rates for Tasmanians living in the Greater Hobart-Southern Region were the highest of the three Regions for all venues and events included in the survey, apart from dance performances and musicals and operas.

For the Mersey-Lyell Region, although the rate of people attending at least one of the cultural venues or events surveyed was similar to the Tasmanian average (83.2% compared to 84.3% for Tasmania), in 9 of the 12 categories surveyed the attendance rate was the lowest of the three Tasmanian Regions.

### ATTENDANCE AT CULTURAL ACTIVITIES, Tasmanian regions - 2002(a)(b)

Venue/activity	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
NUMBER ('000)				
Cinemas	104.2	56.2	45.5	205.9

[About this Release](#)

[Contents](#)

[Contents](#) >> [Culture and heritage](#) >> Heritage

There are many heritage lists (e.g. World Heritage, state heritage, local government, National Trust and Indigenous community heritage lists), with varying criteria and laws and regulations to protect heritage places. The Register of the National Estate, compiled by the Australian Heritage Commission, is a nation-wide heritage list that encompasses natural, Indigenous and historic places.

At 18 June 2003, the Hobart local government area had the highest number of places listed on the Register of the National Estate of any local government area in the state (279 of which 275 were historic listings). Northern Midlands followed with 247 listings, of which 233 were historic.

Circular Head and Central Highlands had the highest number of Indigenous heritage listings in Tasmania (each with 11). West Coast had the highest number of natural listings (28), followed by Finders (27), and Central Highlands and Huon Valley (each with 24).

Throughout Tasmania, the community has its educational and training needs met in a diversity of ways.

- For those attending school, the Tasmanian Department of Education, with a central office located in Hobart, and a further six district offices in the north, north west and south of the state, is Tasmania's largest education provider (in terms of the number of students, staff and schools). There is also an important non-government sector, and a growing number of families educate their children at home.
- For those who have left school and who need vocationally oriented learning, the vocational education and training (VET) sector, with over 100 registered training organisations state-wide, addresses this need. Technical and Further Education (Institute of TAFE Tasmania) is an important provider, with general campuses in Hobart, Warrane, Launceston, Newnham, Inveresk, Burnie, Devonport, Smithton and Queenstown.
- In Tasmania, the higher education sector is dominated by the University of Tasmania, with major campuses in Sandy Bay and Newnham, and a smaller campus in Burnie.
- The Australian Maritime College, located in the North of the state, provides both higher education and vocational education courses.

Of the 280 schools in Tasmania in 2002, the Greater Hobart-Southern Region had 46.4% (130) of all schools in Tasmania, the Northern Region 27.1% (76) and the Mersey-Lyell Region 26.4% (74).

In 2002, there were 174 primary schools in the state, 46.6% (81) in the Greater Hobart-Southern Region, 28.2% (49) in the Mersey-Lyell Region and 25.3% (44) in the Northern Region. Of the 50 secondary schools in Tasmania, 22 were located in the Greater Hobart-Southern Region, 15 in the Northern Region and 13 in the Mersey-Lyell Region.

There were 57 primary/secondary combined schools in the state, with 43.9% (25) located in the Greater Hobart-Southern Region, 21.1% (12) in the Northern Region and 17.5% (10) in the Mersey-Lyell Region. Of the 9 special schools in Tasmania, over half were located in the Northern Region and 3 were located in the Launceston local government area.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Education and training](#) >> Primary and secondary education

The policy of the Department of Education is directed towards educating children in their local communities. However, parents are free to choose which government school their child attends.

Many rural communities have ageing and declining populations, which contributes to declining student numbers in rural schools; often lower than optimum numbers. These schools pose a problem for a government serving a dispersed population. Any consolidation of schools involves longer travelling times for some students.

In rural primary schools, classes are usually coeducational and unstreamed, with teachers devising programs for children of various abilities. Composite classes, consisting of pupils of different ages or grades, are common as are double units or team-teaching where two classes are joined from time to time. This allows for teachers' interests or abilities to be better utilised.

In district high schools, staffing is usually more generous than in urban high schools.

In 2002, there were 2,835 part-time secondary students in Tasmania, accounting for 1,497.6 full-time-equivalent (FTE) students.

Schools in the Greater Hobart-Southern Region had the highest number of part-time secondary students with 1,481 (52.2%), and the most FTE part-time students with 821.6 (54.9%).

In 2002, non-government schools had just 63.8 FTE part-time secondary students compared with 1,433.8 in government schools.

Schools in the Northern Region held the highest proportion of non-government, FTE part-time secondary students, with 47.3% (30.2) of the state's total in 2002.

More females than males undertook part-time secondary study in Tasmania in 2002. Schools in the Northern Region had the highest proportion of female to male students, with 70.8% (336.8) females and 29.2% (138.9) males for 2002.

[Contents](#) >> [Education and training](#) >> [Primary and secondary education](#) >> Highest level of schooling completed

At the 2001 Census, 97,178 (27.2%) people in Tasmania had completed year 12 or equivalent and were not still at school or attending any other educational institution. Of these, 59.0% of people were in the Greater Hobart-Southern Region (28,026 males and 29,347 females), 26.2% (11,801 males and 13,649 females) in the Northern Region and 14.5% (6,538 males and 7,583 females) in the Mersey-Lyell Region.

At the 2001 Census, 119,430 (33.4%) people in Tasmania completed year 10 or equivalent and were not still at school or attending any other educational institution. Of these, 45.2% were in the Greater Hobart-Southern Region (26,101 males and 27,930 females), 29.1% (17,345 males and 17,352 females) were in the Northern Region and 25.5% (15,228 males and 15,249 females) were in the Mersey-Lyell Region.

For further information about highest level of schooling completed in Tasmania, see **2001 Census Basic Community Profiles (BCPs)** on this web site.

[Contents](#) >> [Education and training](#) >> Tertiary education

Tertiary education encompasses any institution offering post-school education. Tertiary courses are offered at a number of institutions, including those providing higher education, Technical and Further Education (Institute of TAFE Tasmania), and specific business courses.

### HIGHER EDUCATION

Higher education in Tasmania is provided by:

- the [University of Tasmania](#) - Tasmania's one university. It has campuses at Sandy Bay in Hobart, at Newnham in Launceston, and a smaller centre in the North-West Centre in Burnie. There are six academic units offering over 120 under-graduate and post-graduate programs.
- the [Australian Maritime College](#) - provides education, training and consulting to serve the maritime sector. It also conducts research. There are two campuses, one in Launceston and the other at Beauty Point.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Education and training](#) >> Vocational education and training

The main purpose of Tasmanian Vocational Education and Training (VET) is to ensure that Tasmanian industry has a well-trained, highly skilled workforce.

A range of vocational and non-vocational courses are offered, including:

- associate diploma courses aimed at para-professional personnel in areas such as engineering, accounting, computing, child care and social welfare
- trade courses that combine theoretical and practical aspects of the trade, and off-the-job training
- post-trade courses to extend the skills and knowledge of tradespersons
- non-trade vocational programs e.g. fashion, retailing, commercial studies.

Providers of VET courses include:

- **Institute of TAFE Tasmania**, which has a state-wide delivery model to enhance the provision of services to industry and the community.
- **the Australian Maritime College**, which serves the maritime sector at campuses in Launceston and Beauty Point

- **private trainers**, throughout the state.

[Contents](#) >> [Education and training](#) >> [Vocational education and training](#) >> [Apprentices and trainees](#) >> Northern Region

The Northern Region recorded 5,500 and 6,073 apprentices and trainees in training during 2001 and 2002, which accounted for 28.2% and 29.0% of Tasmania's apprentices and trainees respectively for the same period.

More males than females were employed as apprentices and trainees for 2001 and 2002 in the Northern Region. In 2002, males accounted for 55.9% (3,397) of all apprentices and trainees in the Northern Region, with females accounting for 44.1% (2,676).

In 2002, the most common employment groups for male trainees and apprentices in the Northern Region were **labourers and related workers** (483 males), and **other intermediate production and transport workers** (458 males). The most common employment groups for female trainees and apprentices were **intermediate service workers** (579 females), and **intermediate clerical workers** (485 females).

The Institute of TAFE Tasmania is the largest registered training organisation in Tasmania. The Institute provides accredited training to over 26,000 Tasmanians each year, at Institute campuses, in workplaces, at home, or Online Access Centres via computer managed learning. In addition, there are over 30,000 annual enrolments in non-accredited Adult Education activities.

The Institute of TAFE Tasmania offers students a choice of over 300 courses leading to nationally recognised qualifications. These are delivered through 11 state-wide programs:

- Adult Education
- Automotive and Electrical
- Business
- Community Services and Health
- Construction and Textiles
- Design and Communication
- Drysdale (Hospitality and Tourism)
- General Education
- Information Technology
- Metals and Engineering
- Natural Resources.

The Institute has major campuses in Hobart, Clarence, Launceston City, Alanvale, Burnie and Devonport. In addition, the Institute operates a number of smaller facilities, ranging from a series of Adult Education annexes across the state to the TAFETrain centre at

Queenstown and the Inveresk Academy of Art shared with the University of Tasmania.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Education and training](#) >> [Vocational education and training](#) >> [Institute of TAFE Tasmania](#) >> Nominal hours of delivery

During 2002, TAFE Tasmania delivered 6.46 million hours of accredited vocational education and training, an increase in delivery of 3.8% from 2001. Over 53.8% of these hours were delivered outside the Greater Hobart-Southern Region of the state: 28.7% in the Northern Region and 25.1% in the Mersey-Lyell Region. The Greater Hobart-Southern Region accounted for 44.0% of the total hours delivered.

In the two years 2001 and 2002, the business program delivered the highest number of hours of any program delivered by the Institute on a state-wide basis, providing 16.0% of TAFE Tasmania's nominal hours of activity in 2002. This program was responsible for the largest number of hours delivered in all Regions.

Hours of activity for male students were higher than those of female students in all three Regions in 2001 and 2002. In all Regions female students recorded higher levels of activity than males in the areas of Community Services and Health, Design and Communication, Drysdale and Business Programs.

(a) These nominal hours are total hours of activity, in that they include training funded by the TAFE Tasmania Purchase Agreement, special purpose grants and fee for service activities.

(b) Nominal hours are the anticipated number of hours of supervised learning or training deemed necessary to adequately present educational material.

(c) These data are currently being validated and may be subject to revision.

(d) The region refers to the location from which training is delivered.

(e) The total for Tasmania includes interstate and overseas.

[Contents](#) >> [Education and training](#) >> [Vocational education and training](#) >> [Institute of TAFE Tasmania](#) >> Enrolments by delivery program

In 2002, there were 38,051 student enrolments in accredited vocational education and training in TAFE Tasmania state-wide, a decrease of 297 (0.8%) in enrolments from 2001 (a student may have more than one enrolment during the year).

In 2002, the largest proportion of TAFE Tasmania's enrolments were in the Greater Hobart-Southern Region, with 40.8% of total enrolments. There were 11,047 student enrolments (29.0%) in the Northern Region and a further 10,407 student enrolments (27.4%) in the Mersey-Lyell Region.

The business program accounted for the highest number of enrolments in the Greater Hobart-Southern and Northern Regions with 21.3% (3,302) and 18.2% (2,007) of total enrolments in the respective Regions. In the Mersey-Lyell Region the metals and engineering program had the highest number of enrolments, 18.3%, (1,906 enrolments) of total enrolments in the Mersey-Lyell Region.

State-wide in 2002, more males (59.0%) than females (41.0%) were enrolled at TAFE Tasmania, with the Mersey-Lyell Region having the largest proportion of male enrolments, 60.7%, in Tasmania.

### POSTGRADUATE DEGREE, GRADUATE DIPLOMA, GRADUATE CERTIFICATE

At the 2001 Census, 8,116 (2.3%) people in Tasmania aged 15 years and over (4,152 males and 3,964 females) held a postgraduate degree, graduate diploma or graduate certificate. The Greater Hobart-Southern Region had the highest proportion of its population with a postgraduate degree, graduate diploma or graduate certificate with 2,785 males and 2,605 females (3.1% of the Region's total).

### BACHELOR DEGREE

At the 2001 Census, 27,132 (7.6%) people in Tasmania (11,547 males and 15,585 females) held a bachelor degree. The Greater Hobart-Southern Region had the highest proportion of its population with a bachelor degree with 9.2% of the Region's total. More females than males held a bachelor degree in Tasmania in 2001, and this was the case in each Region.

### ADVANCED DIPLOMA, DIPLOMA, CERTIFICATE

There were 72,206 (20.2%) people in Tasmania with an advanced diploma, diploma or certificate in the 2001 Census. The Mersey-

Lyell Region had the highest proportion of its population with an advanced diploma, diploma or certificate with 20.6% (16,382 people) of the Region's total. More males than females had an advanced diploma, diploma or certificate in Tasmania in 2001, with 7,806 (66.2%) males and 24,400 (33.8%) females.

## NO QUALIFICATION

In the 2001 Census, 249,852 (69.9%) people (109,644 males and 140,208 females) did not have a qualification, did not state a qualification or stated a qualification outside of the scope of the standard classification.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Education and training](#) >> Adult and community education

The main focus of the Adult and Community Education Class program is on the delivery of non-accredited training, with the majority of courses aimed at enhancing the personal development of participants.

In 2002, there were 31,153 student enrolments representing delivery of 344,996 hours of training. Over 62.7% of adult and community education was delivered in the Greater Hobart-Southern Region, 21.0% in the Northern Region and 16.3% in the Mersey-Lyell Region. The regional distribution of training delivery has remained relatively stable in the three years 2000 to 2002.

Traditionally, the Adult and Community Education Class program has been strongly supported by female students. This trend has continued in 2002 with female enrolments representing 73.2% of total student enrolments.

[Contents](#) >> [Education and training](#) >> Transition from education to work

At May 2002, some 46.9% of people in Tasmania's labour force had non-school qualifications. In the Mersey-Lyell Region, 48.4% of the labour force held a non-school qualification, compared with 47.1% in the Greater Hobart-Southern Region and 45.3% in the Northern Region.

People with a non-school qualification were less likely to be unemployed than those without a non-school qualification:

- 24.4% of Tasmania's unemployed persons had non-school qualifications.
- 23.7% of the Greater Hobart-Southern Region's unemployed persons had non-school qualifications.

[Contents](#) >> [Environment](#) >> Environment - regional overview

The human impact on the Tasmanian environment is being increasingly examined as the community strives to integrate environmental issues into decision-making. Some environmental issues faced by communities within Tasmanian regions are shown below.

- **Environmental complaints** - These decreased in all regions between 2001 and 2002. In 2002, the highest number of complaints was recorded in the North West and West Coast Region. The majority of Tasmanian complaints related to air, water and noise pollution.
- **Pollution in water catchments** - Agriculture generated the largest estimated emissions of nitrogen and phosphorous in the Derwent and Tamar/Esk catchments.
- **Land tenure** - The Greater Hobart-Southern Region had the greatest proportion of land area classified as National Park (30.0%), followed by the Mersey-Lyell Region (22.9%). The Northern Region had a relatively small proportion of land classified as National Park (7.0%).
- **Heating** - In 2002, electric heating was the most popular form of household heating in the Greater Hobart-Southern Region (49.4% of households). Wood heating was still preferred above electric heating in the Northern Region (50.8% of households) and the Mersey-Lyell Region (47.2% of households).

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Environment](#) >> Environmental complaints

Environmental complaints to the Department of Primary Industries, Water and Environment decreased in all Tasmanian Regions between 2001 and 2002. For the years 1999 to 2002, the largest proportion of complaints was received from within the North West and West Coast Region.

In 2002, air pollution was the most common complaint in all three regions. Air pollution accounted for the highest proportion of complaints in the North West and West Coast Region (75.1%), followed by the Launceston and North Eastern Region (51.4%) and the Hobart and Southern Region (45.3%).

Located on the edge of the near-pristine Southern Ocean, Tasmania is swept from the west and south by some of the cleanest air in the world. The quality of this air is then affected by emissions from industrial operations, motor vehicles, and commercial and domestic sources, as well as natural sources such as smoke from bushfires, salt spray, and wind-blown dust.

### FURTHER INFORMATION

The Bureau of Meteorology web site, [http://www.bom.gov.au/climate/averages/tables/ca\\_tas\\_names.shtml](http://www.bom.gov.au/climate/averages/tables/ca_tas_names.shtml) contains annual climatic averages within most regions of Tasmania.

[Contents](#)

[Contents](#) >> [Environment](#) >> [Atmosphere](#) >> [Air pollution](#) >> Specified industrial reporting facilities

Australian industrial facilities using more than a specified amount of any substance listed on the National Pollutant Inventory (NPI) reporting list are required to estimate and report emissions of these substances annually. For example, in Tasmania there were 63 Tasmanian facilities reporting emissions of carbon monoxide in 2002.

Reporting facilities in the Mersey-Lyell Region estimated the greatest volume of emissions of lead and compounds, oxides of nitrogen and particulate matter. The Northern Region estimated the highest volume of emissions of carbon monoxide, sulfur dioxide and total volatile organic compounds. The Greater Hobart and Southern Region estimated the largest emissions of mercury and compounds.

### ESTIMATED ANNUAL EMISSIONS OF SELECTED POLLUTANTS, By Tasmanian Reporting Facilities - 2001-02(a)(b)(c)(d)

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Environment](#) >> [Atmosphere](#) >> [Air pollution](#) >> Other sources of emissions

Emissions from facilities using less than the specified amount of the substances listed on the NPI are estimated by the Department of Primary Industries, Water and Environment (DPIWE) in Tasmania. DPIWE also estimates emissions arising from everyday household activities, such as driving to work and mowing the lawn. Both of these types of emissions are included on the database. In Tasmania, estimated aggregate emissions are compiled for the Hobart and Launceston airsheds.

Estimated emissions from other aggregate sources were higher on most counts at the Hobart airshed. However, for the Launceston airshed there were estimated to be higher levels of industry-related oxides of nitrogen, transport-related sulfur dioxide and 'other' related levels of lead and compounds. The highest levels of estimated annual emissions in both Hobart and Launceston were of carbon monoxide, lead and compounds and oxides of nitrogen; each was related to transport.

### ESTIMATED ANNUAL EMISSIONS OF SELECTED POLLUTANTS, Other aggregate sources(a)(b)(c)(d)

Carbon monoxide	Lead & compounds	Mercury & compounds	Oxides of nitrogen	Particulate matter(e)	Sulfur dioxide	Total volatile organic compounds(f)
tonnes	kg	kg	tonnes	tonnes	tonnes	tonnes

Industry(g)							
Hobart airshed	110	950	16	130	1,100	340	480
Launceston airshed	18	490	9	470	550	190	340
Transport(h)							
Hobart airshed	51,000	11,000	3	6,000	200	100	420
Launceston airshed	27,000	6,000	-	3,200	130	140	53
Other(i)							
Hobart airshed	23,000	49	3	360	2,400	370	7,300
Launceston airshed	14,000	52	1	200	1,300	75	4,500

- nil or rounded to zero

(a) NPI airsheds cover rectangular areas with the following boundaries: Launceston airshed extends as far west as Deloraine, as far south as Longford, and as far north-east as East Sandy Point, near Bridport. Hobart airshed extends as far north as Bagdad, as far east as Dodges Ferry, as far south as the southern-most tip of Betsey Island, and as far west as Hayes, near New Norfolk.

(b) Specified Tasmanian reporting facilities data are obtained from the facility emission data report (air) within <http://www.npi.gov.au>. Accessed May 2003.

(c) Data are derived using best estimate methodologies, not direct measurement. Accuracy of data will vary according to the estimation technique used. Estimates accessed at May 2003.

(d) Data collected from 2002 onwards will provide a more valid comparison due to the refinement of estimation techniques.

(e) Dust particles of any substance that are less than 10 micrometres diameter.

(f) A grouping of a wide range of volatile organic chemical compounds (substances made up of predominantly carbon and hydrogen) to simplify reporting when these are present in ambient air or emissions.

(g) Includes fuel combustion from facilities with emissions below the reporting threshold, service stations, motor vehicle refinishing, cutback bitumen, bakeries, dry cleaning, and print shops/graphic arts.

(h) Includes motor vehicles, recreational boating, aeroplanes, railways and commercial shipping/boating.

(i) Includes solid fuel burning (domestic), burning and wildfires, lawn mowing, backyard incinerators, barbecues, liquid fuel burning (domestic), gaseous fuel burning (domestic), domestic and commercial solvents and aerosols and architectural surface coatings.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Environment](#) >> [Atmosphere](#) >> Ozone depleting substances

The ozone depleting potential of chlorofluorocarbons and hydrochlorofluorocarbons sold in Tasmania decreased from 3,449 in 1998-99 to 1,792 in 2001-02. This decrease is reflected in the figures for each Region. In both years, the total ozone depleting potential of substances sold in the Greater Hobart-Southern Region was higher than in any other region; however, there was a slight increase in the Northern and Mersey-Lyell regions during 2001-02.

Collections of halon for destruction are not registered at a sub-state level. The ozone depleting potential of registered halon collected state-wide increased in 1999-2000 due to the collection of Antarctic halon registered in Tasmania.

### OZONE DEPLETING SUBSTANCES, Ozone Depleting Potential (ODP): Tasmanian regions(a)

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
	ODP(b)	ODP(b)	ODP(b)	ODP(b)
CFCs and HCFCs, sales(c)				
1998-99	1,938	703	807	<b>3,449</b>
1999-2000	1,538	467	588	<b>2,593</b>
2000-01	1,110	358	600	<b>2,068</b>

2001-02	718	470	603	1,792
Halon, collections(d)(e)				
1998-99	na	na	na	1,851
1999-2000	na	na	na	76,787
2000-01	na	na	na	32,878
2001-02	na	na	na	42,407

na not available

(a) This table excludes data on methyl bromide, another ozone depleting substance used in Tasmania for fumigation and agricultural applications. Data on this substance is not available.

(b) The Ozone Depleting Potential (ODP) of a substance reflects the combination of percentage (by weight) of chlorine and bromine atoms and the lifetime of the compound in the atmosphere, multiplied by the metric tonnage of the substance of e.g. 1 tonne of CFC-11 = 1 ODP of CFC-11; 1 tonne of halon 1211 = 3 ODP of halon 1211.

(c) CFCs (Chlorofluorocarbons) and HCFCs (Hydrochlorofluorocarbons) are ozone depleting substances used in refrigeration and air conditioning. Sales of these substances are registered with the Department of Primary Industries, Water and Environment.

(d) Halon is an ozone depleting gas used in yellow fire extinguishers. Halon is collected by the Department of Environment and Heritage and DASCEM for safe disposal at the National Halon Bank.

(e) The 1999-2000, 2000-01 and 2001-02 figures for the ODP of halon collections in Tasmania include the collection of Antarctic halon, which was registered at the Tasmanian depot.

[Contents](#) >> [Environment](#) >> Water

Nitrogen and phosphorus are essential nutrients for all forms of life. However, high levels of these substances pose an environmental hazard. High concentrations of total nitrogen and total phosphorous are often associated with algal blooms (including toxic blue-green algal blooms), as well as dense aquatic plant growth. This process of high nutrient input and algal growth is know as eutrophication, which can lead to water that does not support aquatic life. Emissions of nitrogen and phosphorus are estimated to be lower to the Derwent catchment than to the Tamar/Esk catchment.

Agriculture and sewage treatment plants are estimated to generate the largest amount of phosphorous to both the Derwent and Tamar/Esk catchments. The highest estimated emissions of nitrogen in to the Derwent and Tamar/Esk catchments, are estimated to be from agriculture, woodland and sewage treatment plants.

### ESTIMATED ANNUAL EMISSIONS OF NITROGEN AND PHOSPHORUS, Derwent and Tamar/Esk water catchments(a)

	Derwent(b)		Tamar/Esk(b)
Total nitrogen	Total phosphorus	Total nitrogen	Total phosphorus
tonnes/year	tonnes/year	tonnes/year	tonnes/year

Agriculture	522.7	166.3	905.1	288.0
Alpine heath	-	-	-	-

<b>Total</b>	<b>1,659.2</b>	<b>380.6</b>	<b>1,870.0</b>	<b>472.4</b>

- nil or rounded to zero

na not available

(a) Data derived using best estimate methodologies, not direct measurement. Accuracy of data will vary according to the estimation technique used.

(b) The National Pollutant Inventory (NPI) is an Internet database designed to provide the community, industry and government with information on the types and amounts of certain substances being emitted to the environment. NPI water catchments cover rectangular areas with the following boundaries:

The Tamar/Esk water catchment extends as far west as Deloraine, as far south as Longford, and as far north-east as East Sandy Point, near Bridport.

The Derwent water catchment extends as far north as Bagdad, as far east as Dodges Ferry, as far south as the southern-most tip of Betsey Island, and as far west as Hayes, near New Norfolk.

(c) No vegetation cover.

(d) Sewage treatment plant data available for 2001-02. All other Derwent estimates were available for 1998-99. All other Tamar/Esk estimates were available for 1999-2000.

(e) A facility that is exempt from or chooses not to report activity.

As at May 2003, some 38.2% of land in Tasmania was private property. Private property constituted the largest proportion of land in the Northern Region (52.3%), followed by the Greater Hobart-Southern Region (39.6%) and the Mersey-Lyell Region (24.3%).

National Park covered the second-largest proportion of land in the state (21.0%). The Greater Hobart-Southern Region had the greatest percentage of its land classified as National park (30.0%), followed by the Mersey-Lyell Region (22.9%). The Northern Region had a relatively small proportion of its land classified as National park (7.0%).

State forest covered 19.2% of land state-wide, making up 22.3% of the Northern Region, 20.5% of the Mersey-Lyell Region, and 15.7% of the Greater Hobart-Southern Region.

Conservation area was the only other land classification covering over 10.0% of any region, accounting for 13.7% of land in the Mersey-Lyell Region.

### LAND TENURE, Tasmanian regions - as at May 2003(a)(b)

Greater Hobart-Southern

- nil or rounded to zero

(a) The total sum of all areas quoted should not be considered as the land mass area of Tasmania. Statutory reserve types have been proclaimed to lower water mark and include coastal waters in some cases.

(b) Land tenure data in this table may differ from data in other tables because of the date it was accessed: the constant refinement of Geographic Information System (GIS) processes results in frequent, minor changes to land tenure data.

(c) The category nature reserve does not include the Macquarie Island nature reserve.

(d) The Regional Forest Agreement Act has brought changes to categories of crown and reserve land, the most significant change resulting in the reclassification of all forms of crown land act reserves and subsequently reproclaiming them as public reserves.

(e) Other authority land includes local government areas, Government Business Enterprises (GBEs), statutory authorities, state owned companies, other government departments, but excludes Commonwealth, Hydro-Electric Corporation and Forestry land.

The following extended table shows that the Greater Hobart-Southern Region had the largest area of rateable residential land (87,106 hectares), rateable land used for sporting facilities (80,543 hectares) and rateable vacant land (61,902 hectares) in Tasmania.

The Hobart local government area had the largest area of commercial land (609 hectares) in the Greater Hobart-Southern Region.

### RATEABLE LAND USE AREAS, Greater Hobart-Southern local government areas - as at May 2003(a)(b)(c)

	Commercial	Industrial	Primary production	Public service/ local govt.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Environment](#) >> [Land](#) >> [Land use](#) >> Northern Region

The following extended table shows that the Northern Region had the largest area of rateable land for primary production (1,015,873 hectares) and the George Town local government area had the largest area of rateable industrial land (2,856 hectares) in Tasmania. The Northern Midlands local government area had the largest area of rateable land under primary production (394,276 hectares) in Tasmania.

The Launceston local government area had the largest area of rateable residential land (13,561 hectares) in the Northern Region.

### RATEABLE LAND USE AREAS, Northern local government areas - as at May 2003(a)(b)(c)

	Commercial	Industrial	Primary production	Public service/ local government
Local government area	ha	ha	ha	ha
Break O'Day	119	44	86,070	238
Dorset	148	546	146,415	203
Flinders	86	5	73,882	5,287
George Town	57	2,856	35,125	5,515

Launceston	327	435	113,666	1,091
Meander Valley	378	148	129,803	330
Northern Midlands	1,095	201	394,276	584
West Tamar	170	51	36,636	234
<b>Total</b>	<b>2,381</b>	<b>4,286</b>	<b>1,015,873</b>	<b>13,482</b>
<b>Tasmania</b>	<b>5,634</b>	<b>8,068</b>	<b>2,420,950</b>	<b>32,831</b>

For footnotes see end of table.

#### RATEABLE LAND USE AREAS, Northern local government areas - as at May 2003(a)(b)(c) - continued

	Quarrying and mining	Residential	Sporting facility/ recreation	Vacant land	Total land(c)
Local government area	ha	ha	ha	ha	ha
Break O'Day	251	6,303	12,813	7,906	113,744
Dorset	50	3,433	14,875	2,535	168,205
Flinders	16	3,225	200	2,727	85,429
George Town	163	3,899	222	1,653	49,489
Launceston	91	13,561	1,878	4,870	135,918
Meander Valley	100	10,878	3,592	4,666	149,895
Northern Midlands	199	3,660	761	1,821	402,597
West Tamar	299	10,508	979	4,831	53,708
<b>Total</b>	<b>1,168</b>	<b>55,466</b>	<b>35,321</b>	<b>31,010</b>	<b>1,158,987</b>
<b>Tasmania</b>	<b>23,055</b>	<b>172,702</b>	<b>120,095</b>	<b>104,086</b>	<b>2,887,420</b>

(a) Areas are given in hectares and relate to rateable properties only.

(b) Estimates have been rounded and minor discrepancies may occur between sums of component items and totals.

(c) Total land includes data from the entire table.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Environment](#) >> [Land](#) >> [Land use](#) >> Mersey-Lyell Region

The following extended table shows that the Mersey-Lyell Region had the largest area of rateable land used for quarrying and mining in Tasmania (19,965 hectares), largely due to the large area of land used for mining and quarrying in the West Coast local government area (12,477 hectares).

The West Coast local government area had the smallest area of land used for primary production in the Mersey-Lyell Region (3,720 hectares).

### RATEABLE LAND USE AREAS, Mersey-Lyell local government areas - as at May 2003(a)(b)(c)

	Commercial	Industrial	Primary production	Public service/ local gov.
Local government area	ha	ha	ha	ha

Past Releases

Page tools: [Print Page](#)

[About this Release](#)

[Contents](#)

[Contents](#) >> [Environment](#) >> [Land](#) >> Salinity

Salinity describes the salt content of soil or water. Soluble salts are often found in water and soil, but not in sufficient concentrations to affect plant and animal survival. When salt content is excessive it degrades water quality and land productivity.

Salinity increases are usually caused by a rise in the level of underground water tables bringing naturally occurring salt to the surface. This concentrates salt and affects the environment dependent on the soil and water.

The National Action Plan (NAP) for Salinity and Water Quality has identified the Midlands as a priority region in Tasmania. In 2002, it was estimated that more farms reported salinity in the Midlands (318) than in the rest of the state (72). Of farms reporting changes to management practices to prevent salinity, it was estimated that most were irrigated farms in the Midlands (156).

### SALINITY ON FARMS, Tasmanian regions - 2002(a)(b)

	Irrigated farms	Non-irrigated farms
	no.	no.
Farms showing signs of salinity		
Midlands	130	*188

Balance of Tasmania	*26	46
<b>Total(c)</b>	<b>155</b>	<b>*235</b>
Farms that have changed management practices to prevent salinity		
Midlands	156	76
Balance of Tasmania	32	**125
<b>Total(c)</b>	<b>188</b>	<b>*201</b>

\* estimate has a relative standard error of between 25% and 50% and should be used with caution. Data is subject to sampling variability too high for most practical purposes.

\*\* estimate has a relative standard error greater than 50% and is considered too unreliable for general use.

(a) Estimates for salinity were processed at the state and NAP level.

(b) Tasmania has only one National Action Plan (NAP) region - Midlands. Refer to the [Map of Tasmanian NAP regions](#) that relate to these data.

(c) Estimates have been rounded and minor discrepancies may occur between sums of component items and totals.

[Contents](#)

[Contents](#) >> [Environment](#) >> Biodiversity

Biodiversity (or biological diversity) is the variety of life forms on earth - the different plants, animals and microorganisms, the genes they contain, and the ecosystems of which they form a part. It is not static but constantly changing - increased by genetic change and evolution and reduced by processes such as habitat degradation and extinction. Biodiversity is usually considered at three levels:

- species diversity is the variety of species on earth (plants, animals, bacteria)
- ecosystem diversity is the variety of habitats, biotic communities and ecological processes
- genetic diversity is the variety of genetic information within and between populations of species. It is the basis of continuing evolution, and of the adaptability and survival of species.

[Contents](#)

[Contents](#) >> [Environment](#) >> [Biodiversity](#) >> Land cover

In 1999 the Greater Hobart-Southern Region had the highest proportion of forest coverage in the state (44.2%) followed by the Northern region (42.2%). The Greater Hobart-Southern Region also had the highest coverage of alpine (5.5%) and woodland coverage (7.8%) and the lowest proportion of scrub (10.3%) and wetland (0.5%) coverage.

The Northern Region had the highest proportion of agricultural (19.4%) and urban (1.2%) coverage and the lowest rainforest (1.8%) coverage in Tasmania.

The Mersey-Lyell Region had the highest rainforest (15.8 %) and heath/buttongrass (9.2%) coverage and the lowest agricultural (8.3%), alpine (1.2%) and woodland (1.1%) coverage in Tasmania.

### LAND COVER, Tasmanian regions(a)(b)

Land classification	Greater Hobart-Southern		Northern		Mersey-Lyell	
	ha	%	ha	%	ha	%
Agricultural(c)	241,111	9.5	386,518	19.4	205,297	8.3
Alpine vegetation(d)	139,093	5.5	41,007	2.1	29,300	1.2

Bare(e)	95,158	3.7	77,103	3.9	78,743	3.2
Forest	1,128,210	44.2	839,263	42.2	631,321	25.4
Grassland	75,455	3.0	84,795	4.3	14,814	0.6
Heath/buttongrass	93,811	3.7	57,820	2.9	229,331	9.2
Rainforest	151,011	5.9	36,685	1.8	393,806	15.8
Saltmarsh	7,465	0.3	7,250	0.4	2,502	0.1
Scrub	262,807	10.3	285,390	14.4	556,508	22.4
Unclassified(f)	10,651	0.4	18,220	0.9	14,621	0.6
Urban	21,035	0.8	24,663	1.2	26,326	1.1
Water	111,938	4.4	14,518	0.7	257,781	10.4
Wetland	12,977	0.5	38,680	1.9	17,570	0.7
Woodland	199,920	7.8	76,810	3.9	27,106	1.1
<b>Total</b>	<b>2,550,642</b>	<b>100.0</b>	<b>1,988,722</b>	<b>100.0</b>	<b>2,485,026</b>	<b>100.1</b>

(a) Classification is derived from satellite imagery acquired between January 1999 and 2002. The accuracy of such classifications is about 80%. For further information see the footnote below.

(b) Area covered includes the Bass Strait islands (King Island and the Furneaux group).

(c) Primarily agricultural areas may also include some urban fringe areas, native grasslands and other low or sparse vegetation.

(d) Includes alpine grassland, heath, scrub and forest.

(e) Any form of bare ground such as new house sites, quarries, sand dunes, and rocky shores.

(f) Includes areas such as water and cloud shadows masked out of the classification process.

Source: State of the Environment Reporting Program, Resource Planning and Development Commission.

## Footnote

Landsat 7 data from 1999 to 2002 were analysed and classified by the School of Geography and Environmental Studies at the University of Tasmania. Up to 20 regions were identified. Many of these classes were amalgamated to present this analysis of land cover for each of the major Tasmanian regions. This analysis was undertaken as part of the State of the Environment Reporting program for Tasmania. Remotely sensed data greatly simplifies vegetation and land cover types. It is also susceptible to misclassification with accuracy generally at about 80% for the classification.

Mapping of Tasmania's vegetation communities at high resolution, primarily at 1:25,000 scale, is available across the whole state through TASVEG. Vegetation maps and other resources are available through the Department of Primary Industries, Water and Environment (DPIWE). Land use maps and resources are also available through DPIWE and the Australian Natural Resource Atlas.

Previously published data differs from current data due to the use of remote sensing software. Remote sensing software is constantly refined to provide increasingly accurate land cover information. Seasonality impacts on how the software distinguishes land cover types.

## FURTHER INFORMATION

For information relating to State Forest coverage and activity in Tasmania, see [Forestry](#) under Statistics-Tasmania.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Environment](#) >> [Biodiversity](#) >> Threatened species

Between 2001 and 2003, heightened levels of research activity resulted in an increase in the number of species registered as threatened. However, research in 2003 revealed that in the Northern Slopes Bioregion two invertebrate species were no longer classified as threatened and in the Central Highlands one invertebrate species was no longer classified as threatened.

As at May 2003, the greatest number of species that were classified vulnerable, rare or endangered were in the South East Bioregion of Tasmania, for which 342 threatened species were listed, an increase of 42 since 2001.

In 2003, the highest number of threatened invertebrate species was recorded in the Northern Slopes Bioregion (25). The Flinders Bioregion had the greatest number of threatened vertebrate species (27). The South East Bioregion had the highest number of threatened lower plant species (9) and vascular plant species (296).

In 2002, electric heating became the most popular form of room heating used by households within the Greater Hobart-Southern Region (49.4%). However, in 1999 wood heating was most commonly used (52.0%).

Between 1999 and 2002, the use of electric heating increased by 62.8% in the Northern Region and 41.9% in the Mersey-Lyell Region. However, wood heating was still more popular at 50.8% in the Northern and 47.2% in the Mersey-Lyell Regions.

### ROOM HEATING USED MOST, Households: Tasmanian regions

Page tools: [Print Page](#)

[About this Release](#)

[Contents](#)

[Contents](#) >> [Environment](#) >> [Human settlement](#) >> Lighting

In 2002, there were 54,900 or (59.6%) of households in the Greater Hobart-Southern Region that did not use any energy efficient lighting, followed by 29,800 (54.5%) in the Northern Region and 24,900 (57.8%) in the Mersey-Lyell Region. Around a quarter of households in the Greater Hobart-Southern Region and Mersey-Lyell Region had one room lit by fluorescent lighting, 25.1% and 26.0% respectively. The Northern Region had the largest proportion of households with two (13.6%) and three or more (9.1%) rooms lit by fluorescent lighting. However, there were no homes in Tasmania lit entirely by fluorescent lights.

### HOUSEHOLD ROOMS LIT PRIMARILY BY FLUORESCENT LIGHTS, Tasmanian regions

	Greater Hobart-Southern		Northern		Mersey-Lyell		Tasmania	
	'000	%	'000	%	'000	%	'000	%

[Contents](#)

[Contents](#) >> [Environment](#) >> Waste recycling

Most Tasmanian households were involved in recycling at least some items in March 2000, with only 4.7% not recycling, and 7.2% recycling all items surveyed.

The Greater Hobart-Southern Region had the highest proportion of households that recycled all items surveyed (7.5%) and the lowest proportion of households that recycled nothing (3.0%). The Greater Hobart-Southern Region had the highest proportion of household recycling of all individual items except food waste.

The Northern Region had the highest proportion of households undertaking no recycling (7.7%).

The Mersey-Lyell Region had the lowest proportion of households in which all items surveyed were recycled (6.8%). However, this region had the highest portion of households recycling food waste (61.1%).

[About this Release](#)

[Contents](#)

[Contents](#) >> [Forestry](#) >> Forestry - regional overview

Almost half of Tasmania's land is forested, including cool temperate rainforest, wet and dry eucalypt forest and plantations. Forests cover a total of 3,350,000 hectares, about 49% of the state's area (source: Forestry Tasmania, Annual Report 2001-02).

State Forest is forest managed pursuant to the **Forestry Act 1920**. State Forest covers 1,502,000 hectares of Tasmania (source: Forestry Tasmania, Annual Report 2001-02).

Forest Reserve is a category of State Forest, dedicated under the **Forestry Act**, which is mainly managed for recreation, conservation of natural and cultural resources or nature protection. Timber production is not permitted on Forest Reserves. Forest Reserves cover 175,000 hectares of Tasmania (source: Forestry Tasmania, Annual Report 2001-02).

State Forest differs from privately owned forest in that its land and timber is publicly owned, and its management objectives are prescribed by the **Forestry Act**, and include a balance of economic returns from timber production and benefits from non-wood values. It is Forestry Tasmania's policy to allow public access across most State Forest for recreational purposes.

State Forest differs from National Parks and other categories of publicly owned reserve managed by the Parks and Wildlife Service in that parks and reserves are managed for conservation and recreation purposes, and not for timber production and other resource use.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Forestry](#) >> Land on State Forest

As at 30 June 2002, there was a total area of 1,303,000 ha of forested land on State Forest in Tasmania. Of this area, 537,000 ha (41.2%) were tall native eucalypt forest and 403,000 ha (31.0%) were low native eucalypt forest.

In the Bass and Mersey forestry districts, low native eucalypt forest made up the largest proportion of forest, followed by tall native eucalypt forest. In the Huon and Derwent forestry districts, however, tall native eucalypt forest was most common, while in the Murchison district, subtemperate (myrtle) rainforest made up the largest proportion of forest in that district. The Murchison, Bass and Derwent forestry districts contained the largest areas of total forest.

### LAND ON STATE FOREST - as at 30 June 2002 (a)(b)(c)(d)

	Bass	Derwent	Huon	Mersey	Murchison	Total(d)
Forest type	'000 ha	'000 ha	'000 ha	'000 ha	'000 ha	'000 ha
Tall native eucalypt forest(e)	117	147	88	58	127	537
Low native eucalypt forest (f)	165	135	7	59	37	403
Subtemperate (myrtle) rainforest (g)	23	11	3	7	169	214
Other native forest (h)	19	5	4	11	27	66

Softwood plantation	29	9	-	10	5	54
Hardwood plantation	10	5	4	4	6	29
<b>Total forested land</b>	<b>363</b>	<b>313</b>	<b>107</b>	<b>149</b>	<b>372</b>	<b>1,303</b>
Non-forest(i)	35	36	17	21	91	199
<b>Total area</b>	<b>398</b>	<b>349</b>	<b>124</b>	<b>169</b>	<b>462</b>	<b>1,502</b>

- nil or rounded to zero

(a) Refer to the [Map of Tasmanian Forestry Districts](#) that relate to these data.

(b) The areas for forest are derived from detailed forest type mapping. Generally, State forest mapping is updated annually.

(c) Estimates have been rounded and minor discrepancies may occur between sums of component items and totals.

(d) Tenure includes State Forest and Forest Reserves.

(e) Eucalypt forest with current or potential height of 34 metres or more.

(f) Eucalypt forest with current or potential height of less than 34 metres.

(g) Subtemperate myrtle rainforest with no significant eucalypt or acacia.

(h) Including acacia and melaleuca.

(i) Including scrub, moorland, farmland, rock and lakes.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Forestry](#) >> Activity on State Forests

Data relating to forestry activity are available for State Forest only, which accounts for about 40% of total forestry operations. The areas of total State Forest and total Forest Reserves in Tasmania remained stable between 2000-01 and 2001-02 at 1,502,000 ha, which included an unchanged Forest Reserve area of 175,000 ha. Total plantations stocked increased from 77,000 ha to 83,000 ha over the period 2000-01 to 2001-02. The area of native forest harvested decreased from 15,000 ha in 2000-01 to 14,900 ha in 2001-02.

On Tasmania's State Forests, there were 6,300 ha of native forest regenerated in 2000-2001 and this increased to an area of 7,400 ha regenerated in 2001-02. The area of hardwood plantations established on State Forests increased from 4,300 ha in 2000-01 to 4,500 ha in 2001-02. Bass, Derwent and Murchison forestry districts remain the major centres of plantation activity. The area of softwood plantations established increased from 2,700 ha to 3,500 ha over the same period.

### ACTIVITY ON STATE FORESTS(a)(b)

	Bass	Derwent	Huon	Mersey	Murchison	Tasmania
	'000 ha	'000 ha	'000 ha	'000 ha	'000 ha	'000 ha

- nil or rounded to zero

(a) Refer to the [Map of Tasmanian Forestry Districts](#) that relate to these data.

(b) Land tenure data in this table may differ from data in other tables because of the date it was accessed: the constant refinement of Geographic Information System (GIS) processes results in frequent, minor changes to land tenure data.

(c) Figure excludes plantation areas clearfelled but not yet replanted.

- (d) Planting period for mapping and reporting purposes is from 1 July to 30 June.
- (e) Includes softwood plantations, 50% of which are now owned by GMO Renewable Resources, for which data are supplied by Rayonier Australia.
- (f) The majority of mixed hardwood/softwood plantations are reported as hardwood.
- (g) Includes Tassie Trees Trust plantations which are mainly jointly-owned with private growers, but include small proportions owned solely by Forestry Tasmania.
- (h) Includes replanting.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Health](#) >> Health - regional overview

**Life expectancy** - In 2001, persons living in Greater Hobart had a higher life expectancy than those living in the rest of Tasmania, regardless of sex.

**Cancer** - For the period January 1998 to December 2000, lung and colon cancer killed more Tasmanians than any other types of cancer. In terms of diagnosed incidence, the Greater Hobart-Southern Region had a higher crude rate of prostate and breast cancer than any other Region. However, the Mersey-Lyell Region had higher crude rates of colon cancer, lymphomas, and melanoma of skin than other Regions. The highest crude rates of bladder and kidney cancer were diagnosed in the Northern Region of Tasmania.

**Diabetes** - As at March 2003, the Greater Hobart-Southern Region of Tasmania had more registered diabetics than other Regions. The Mersey-Lyell Region, despite having a lower population, had more registered diabetics than the Northern region of Tasmania.

**Risk factors** - Results from the 2001 National Health Survey revealed that persons living in Greater Hobart were, in general, less likely to engage in behaviour risky to their health. They were less likely to smoke, be overweight or obese, and more likely to exercise, compared to the rest of Tasmania. However, persons in Greater Hobart were more likely to consume risky levels of alcohol than those living elsewhere in Tasmania.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Health](#) >> Life expectancy

Life expectancy refers to the average number of years a person can expect to live if current age-specific mortality rates do not change during the person's lifetime.

Throughout Tasmania, life expectancy at birth is greater for females than for males. Males and females born in the Greater Hobart area can expect to live longer than those born elsewhere in the state, with males in Greater Hobart expected to live 76.4 years and females 81.2 years.

### LIFE EXPECTANCY AT BIRTH, Tasmanian regions - 1999-2001

	Males	Females
Statistical Division	years	years
Greater Hobart	76.4	81.2
Southern	75.9	80.2
Northern	75.6	80.6
Mersey-Lyell	75.4	80.8
<b>Tasmania</b>	<b>76.0</b>	<b>81.2</b>

[Contents](#)

[Contents](#) >> [Health](#) >> Health related actions

In the two weeks prior to being interviewed for the 2001 National Health Survey, an estimated 40.0% of Tasmanians took at least one health related action. Some 23.5% consulted a doctor, the most common action reported, while 12.3% consulted a health professional other than a doctor or dentist.

Health problems were responsible for 6.9% of Tasmanians being away from work or study. Health problems also caused other days of reduced activity for 11.0% of people in the state.

### ACTIONS TAKEN FOR HEALTH, Tasmania(a) - 2001

	Greater Hobart	Rest of state		Tasmania
Type of action	%	%	'000	%
Hospital inpatient episode(b)	np	np	*2.5	*0.5
Visited casualty/emergency	np	np	*3.5	*0.7
Visited outpatients	*0.9	1.5	5.7	1.2
Visited day clinic	2.3	2.4	11.0	2.4

Consulted doctor(c)	23.6	23.5	108.9	23.5
Consulted dentist	4.2	5.7	23.5	5.1
Consulted other health professional	11.3	13.0	56.8	12.3
Days away from work or study	6.2	7.4	31.9	6.9
Other days of reduced activity	11.6	10.6	51.0	11.0
None of the above	60.2	59.9	277.6	60.0
<b>Total(d)</b>	<b>100.0</b>	<b>100.0</b>	<b>462.5</b>	<b>100.0</b>

np not available for publication but included in totals where applicable

\*estimate has a relative standard error of between 25% and 50% and should be used with caution. Data is subject to sampling variability too high for most practical purposes.

(a) Actions taken in the two weeks prior to interview.

(b) Persons discharged from hospital in the two weeks prior to the interview.

(c) Includes general practitioners and specialists.

(d) Persons may have reported more than one type of action and therefore components may not add up to totals.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Health](#) >> Hospital separations

There were 81,657 separations (a hospital transfer, discharge or death) from Tasmanian public hospitals in 2001-02, an 8.7% increase from the 1999-2000 figure of 75,155 (source: Regional Statistics, Tasmania, 2001 - cat. no. 1362.6). In 2001-02, people living in the Greater Hobart-Southern Region accounted for 47.4% of separations, while people in the Northern Region accounted for 33.4%, and people in the Mersey-Lyell Region accounted for 18.1% of total separations.

Some 18.3% of separations from Tasmanian public hospitals occurred among people diagnosed with **diseases and disorders of the kidney and urinary tract**, the most common diagnostic category in the state. It was also the most common public hospital diagnostic category for each Region, accounting for 17.4% of separations for residents in both the Greater Hobart-Southern Region and the Northern Region, and 21.9% of separations in the Mersey-Lyell Region.

There were 71,764 separations from Tasmanian private hospitals in 2001-02. **Diseases and disorders of the digestive system** accounted for 14.5% of private hospital separations, making it the most common diagnostic category for private hospitals in the state.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Health](#) >> Health conditions

At the time of the 2001 National Health Survey, short sightedness and long sightedness were the most common long term conditions in Tasmania, afflicting 21.1% and 20.7% of people respectively.

Mental and behavioural problems affected 12.5% of people living in the Greater Hobart area, but only 8.5% of people living in the rest of the state.

### LONG TERM CONDITIONS, Tasmania(a) - 2001

	Greater Hobart	Rest of state		Tasmania
Long term conditions	%	%	'000	%
Neoplasms	*0.6	1.7	5.8	1.3
Diabetes mellitus	1.8	2.4	9.9	2.1
Mental & behavioural problems	12.5	8.5	46.9	10.1
Short sightedness	21.9	20.5	97.4	21.1
Long sightedness	19.5	21.5	95.6	20.7
Deafness (complete/partial)	10.6	11.9	52.6	11.4

Hypertensive disease	10.5	13.0	55.2	11.9
Other diseases of the circulatory system	9.7	11.5	49.6	10.7
Asthma	13.2	10.7	54.3	11.7
Hayfever & allergic rhinitis	15.8	16.5	75.1	16.2
Arthritis	18.7	18.7	86.6	18.7
Back pain/problems nec(b) & disc disorders	20.1	18.4	88.3	19.1

\*estimate has a relative standard error of between 25% and 50% and should be used with caution. Data is subject to sampling variability too high for most practical purposes.

(a) Conditions which have lasted or are expected to last for six months or more.

(b) Not elsewhere classified.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Health](#) >> [Health conditions](#) >> Diabetes

As at March 2003, there were 1,783 Tasmanians on the Diabetes Register, with 45.5% of these from the Greater Hobart-Southern Region, another 24.1% from the Northern Region, and a further 30.4% from the Mersey-Lyell Region.

Of all Tasmanians on the register, about a third had a diagnostic age of 20 years or less. Diagnostic age is important because anyone diagnosed before 20 years of age would be more likely to have insulin-dependent diabetes mellitus.

### REGISTRANTS ON TASMANIAN INSULIN TREATED DIABETES REGISTER, Tasmanian regions(a) - March 2003

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
	no.	no.	no.	no.
Registrants with a diagnostic age of less than 20 years	325	147	161	633
Sex				
Males	427	241	285	953
Females	385	188	257	830

Current age of registrants				
0-20 years	123	39	53	215
21-64 years	505	264	340	1,109
65 years and over	184	126	149	459
<b>Total registered diabetics</b>	<b>812</b>	<b>429</b>	<b>542</b>	<b>1,783</b>

(a) Registration is voluntary. The Menzies Centre estimates that 85-90% of those on insulin in Tasmania are registered.

[Contents](#)

[Contents](#) >> [Health](#) >> [Health conditions](#) >> [Cancer](#) >> Incidence

In terms of incidence, prostate cancer was the most common cancer in Tasmania from January 1998 to December 2000, recording an average crude rate of 116 per 100,000 males per year. It was also the most common cancer in each Region of Tasmania.

Breast cancer was the next most common cancer in Tasmania. It was the most frequently diagnosed cancer among women, with an average crude rate of 110 per 100,000 women per year.

### INCIDENCE OF MOST FREQUENTLY DIAGNOSED CANCERS, Tasmanian regions - January 1998-December 2000

Cancer site	Greater Hobart- Southern	Northern	Mersey-Lyell	Tasmania
<b>Number (3 year total)</b>				
Prostate	414	236	158	808
Breast	410	220	157	787
Lung	345	200	138	683
Colon	293	174	158	625
Melanoma of skin(a)	301	136	146	583
Rectum	172	95	80	347

All lymphomas	147	84	87	318
Bladder	144	92	56	292
Unspecified site	133	78	63	274
Kidney	104	63	31	198
<b>Average crude rate(b)(c)(d)</b>				
Prostate(e)	122	120	99	116
Breast(e)	118	109	95	110
Lung	50	50	42	48
Colon	43	44	49	44
Melanoma of skin(a)	44	34	45	41
Rectum	25	24	25	25
All lymphomas	21	21	27	23
Bladder	21	23	17	21
Unspecified site	19	20	19	19
Kidney	15	16	10	14

(a) Refers to invasive melanoma of skin only. Excludes **in situ** melanoma of skin.

(b) Per 100,000 persons per year (excluding prostate and breast cancer, which are sex-specific and therefore calculated for the relevant population).

(c) These are average crude rates and have not been age standardised. Cancer registries generally produce age standardised rates.

(d) An average Estimated Resident Population figure (average of 1998 to 2000 figures) was used to calculate average crude rates per year.

(e) The rate for prostate cancer relates to 100,000 males per year and the rate for breast cancer relates to 100,000 females per year.

[Contents](#)

[Contents](#) >> [Health](#) >> [Health conditions](#) >> [Cancer](#) >> Mortality

During the period from January 1998 to December 2000, lung cancer recorded an average crude mortality rate of 41 per 100,000 persons per year, the highest rate of any cancer. Lung cancer also recorded the highest average crude mortality rate for each region of Tasmania.

Breast cancer and prostate cancer were both responsible for an average crude mortality rate of 31 per 100,000 females or males respectively per year.

### MORTALITY OF MOST FREQUENTLY DIAGNOSED CANCERS, Tasmanian regions - January 1998-December 2000

Cancer site	Greater Hobart- Southern	Northern	Mersey-Lyell	Tasmania
<b>Number (3 year total)</b>				
Lung	299	165	119	583
Colon	141	75	72	288
Unspecified site	122	65	47	234
Breast	105	65	53	223
Prostate	106	55	58	219

Rectum	74	49	37	160
All lymphomas	73	34	36	143
Pancreas	72	27	29	128
Stomach	55	32	24	111
All leukaemias	59	23	15	97
<b>Average crude rate(a)(b)(c)</b>				
Lung	43	41	37	41
Colon	21	19	22	20
Unspecified site	18	16	14	17
Breast(d)	30	32	32	31
Prostate(d)	31	28	36	31
Rectum	11	12	11	11
All lymphomas	11	9	11	10
Pancreas	10	7	9	9
Stomach	8	8	7	8
All leukaemias	9	6	5	7

(a) Per 100,000 persons per year (excluding prostate and breast cancer, which are sex-specific and therefore calculated for the relevant population).

(b) These are average crude rates and have not been age standardised. Cancer registries generally produce age standardised rates.

(c) An average Estimated Resident Population figure (average of 1998 to 2000 figures) was used to calculate average crude rates per year.

(d) The rate for prostate cancer relates to 100,000 males per year and the rate for breast cancer relates to 100,000 females per year.

[Contents](#) >> [Health](#) >> Health risk factors

At the time of the 2001 National Health Survey, an estimated 70.1% of Tasmanians aged 18 years and over were engaging in low level exercise or were sedentary. Persons in Greater Hobart were less likely to be represented in the sedentary/low exercise category than the rest of the state.

Being overweight or obese was another commonly reported health risk factor, with 43.6% of Tasmanians represented in this category.

### HEALTH RISK FACTORS, Tasmania(a) - 2001

	Greater Hobart	Rest of state		Tasmania
Risk status	%	%	'000	%
Current smoker(b)	23.8	24.7	84.3	24.3
Risky/high alcohol risk(c)	10.5	9.3	34.1	9.8
Sedentary/low exercise level	65.6	73.4	256.5	70.1
Overweight/obese(d)	39.5	46.5	159.5	43.6

- (a) Persons aged 18 years and over.
- (b) Includes both regular (i.e. daily) and non-regular smokers.
- (c) Average daily consumption of more than 50ml for males or more than 25ml for females.
- (d) Has a body mass index greater than 25.

[Contents](#)

[Contents](#) >> [Health](#) >> [Causes of death](#) >> Number

There were 3,876 deaths recorded in Tasmania in 2001. The greatest number of these, 47.1%, occurred among residents of the Greater Hobart-Southern Region. Diseases of the circulatory system were responsible for 38.3% of deaths recorded, while malignant neoplasms (malignant cancers) caused 27.3% of deaths in Tasmania.

### CAUSES OF DEATH, Tasmanian regions - 2001(a)

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania(d)
Cause of death(b)	no.	no.	no.	no.
Malignant neoplasms	501	299	255	1,058
Diseases of the circulatory system				
Ischaemic heart disease	392	229	151	774
Cerebrovascular disease	146	125	90	363
Total(c)	693	455	333	1,485
Diseases of the respiratory system	168	104	71	345
Diseases of the digestive system	56	28	32	116
All other diseases	293	200	131	626
External causes	116	62	62	246

- (a) Data relates to usual residence deaths registered in year of registration.
- (b) Classified according to the tenth revision of the World Health Organisation's International Classification of Diseases (ICD).
- (c) Includes other diseases of the circulatory system.
- (d) Includes Tasmanian undefined.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Health](#) >> [Health services](#) >> [Hospital beds](#) >> Private

At 30 June 2002, there were 985 private hospital beds in Tasmania, 214 less than the number of public hospital beds. The majority of these beds, 62.3%, were located in hospitals in the Greater Hobart-Southern Region, while 26.9% were in Northern Region hospitals, and 10.8% were in hospitals in the Mersey-Lyell Region.

### PRIVATE HOSPITAL BEDS, Tasmanian regions - 30 June 2002

		Beds available

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Health](#) >> [Health services](#) >> Occupied bed days

In 2001-02, a total of 366,419 occupied bed days were spent in Tasmanian public hospitals. Over half (50.8%) of these bed days were occupied by patients in the Greater Hobart-Southern Region, 33.7% were occupied by patients in the Northern Region, and the remaining 15.5% were occupied by patients in the Mersey-Lyell Region. Females accounted for 52.7% of occupied bed days in Tasmanian public hospitals, and males accounted for 47.3%.

In 2001-02, a total of 207,496 occupied bed days were spent in Tasmanian private hospitals. Females accounted for 59.3% of occupied bed days in Tasmanian private hospitals, and males accounted for 40.7%.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Health](#) >> [Health services](#) >> Ambulance activity

During 2001-02, the Tasmanian Ambulance Service responded to 41,816 separate incidents in Tasmania. The majority of ambulance activity in Tasmania occurred in response to emergencies. This was also true for all regions, with emergencies accounting for 55.2% of all activity in the South region, 51.8% in the North region, and 52.4% in the North West region.

### AMBULANCE ACTIVITY, Tasmanian regions - 2001-02

	South(a)	North(a)	North West(a)	Tasmania(a)
Ambulance activity	no.	no.	no.	no.
Emergency(b)	11,906	5,550	4,987	22,443
Urgent(c)	6,549	2,911	2,849	12,309
Non-emergency(d)	3,131	2,248	1,685	7,064
<b>Total</b>	<b>21,586</b>	<b>10,709</b>	<b>9,521</b>	<b>41,816</b>

(a) All activity is recorded by regions corresponding to the (03)62, (03)63 and (03)64 telephone directory areas. Refer to the [Map of Tasmanian Telephone Directory Areas](#)

(b) Immediate response. Incident is potentially life-threatening.

(c) Response desirable within 30 minutes.

(d) Requires ambulance transport.

### RESIDENTIAL SECTOR

From 2002-03 to 2003-04, strong growth continued in the residential building sector in Tasmania and its regions. During the same period, the property sector recorded a decrease in the number of residential sales.

The number of new house building approvals increased by 29.6% in the Greater Hobart-Southern Region, 32.4% in the Northern Region and 69.1% in the Mersey-Lyell Region. The value of new house building approvals increased by 46.3% in the Greater Hobart-Southern Region, 51.3% in the Northern Region, and 99.2% in the Mersey-Lyell Region.

Property sales data shows a different trend, with the number of residential property sales decreasing by 18.3% in the Greater Hobart-Southern Region, 16.8% in the Northern Region, and 17.6% in the Mersey-Lyell Region.

### NON-RESIDENTIAL SECTOR

From 2002-03 to 2003-04, the non-residential building and property sector experienced mixed outcomes. Over this period, the value of non-residential building approvals increased by 7.0% in the Greater Hobart-Southern Region, 17.2% in the Northern Region and decreased by 35.8% in the Mersey-Lyell Region.

From 2002-03 to 2003-04, the number of non-residential property sales increased by 5.0% in the Greater Hobart-Southern Region, 2.3% in the Northern Region and 30.8% in the Mersey-Lyell Region.

### HOUSING AND CONSTRUCTION, Regional overview - change 2002-03 to 2003-04

	Greater Hobart-Southern Region	Northern Region	Mersey-Lyell Region	Tasmania
	%	%	%	%
<b>Dwelling approvals - number</b>				
New houses	29.6	32.4	69.1	36.8
New other residential building	243.1	-4.1	955.6	136.0
Total dwellings	43.2	27.7	90.8	46.4

[About this Release](#)

[Contents](#)

[Contents](#) >> [Housing and construction](#) >> [Housing characteristics](#) >> Number of bedrooms

At August 2001, there were 208,704 dwellings in Tasmania. Of these, 920 (0.4%) had no bedrooms (including bedsitters), 9,317 (4.5%) were single-room dwellings, 37,407 (17.9%) had two bedrooms, 95,364 (45.7%) had three bedrooms and 33,111 (15.9%) had 4 or more bedrooms. Of the following dwellings:

- **No bedrooms, 1 bedroom and 2 bedrooms** - Hobart was the local government area with the highest proportion of its dwellings that had no bedrooms (including bedsitters) (1.2%), 1 bedroom (9.4%) and 2 bedrooms (27.2%) dwellings.
- **3 bedrooms** - Brighton was the local government area with the highest proportion of its dwellings with 3 bedrooms (68.7%).
- **4 bedrooms and above** - Kingborough was the local government area with the highest proportion of its dwellings with 4 bedrooms or more (23.7%).

[About this Release](#)

[Contents](#)

[Contents](#) >> [Housing and construction](#) >> [Property sales](#) >> Greater Hobart-Southern Region

From 2002-03 to 2003-04, the number of property sales in the Greater Hobart-Southern Region decreased by 12.5%, from 12,514 sales to 10,950 sales. Over the same period, the mean sales price increased by 42.1%, from \$133,740 to \$190,052.

From 2002-03 to 2003-04, the number of residential property sales in the Greater Hobart-Southern Region decreased by 18.3%, from 9,406 sales to 7,688 sales. Over the same period, the mean sales price increased by 44.8%, from \$144,632 to \$209,382. All local government areas except Central Highlands recorded a drop in the sales of residential property from 2002-03 to 2003-04.

Over the same period and for the following local government areas:

- **Clarence** - recorded a 23.8% decrease in the number of sales of residential property
- **Hobart** - recorded a 14.6% decrease in the number of sales of residential property
- **Central Highlands** - recorded a 15.8% increase in the number of residential property sales, the only local government area to record an increase.

On average, Tasmanians living in the Greater Hobart-Southern Region have a higher income than those living in other Regions. However, they can expect to face more expensive housing costs, with median rent and home loan repayments being higher than other Regions of the state. Persons living in the Mersey-Lyell Region can expect lower median incomes, but cheaper housing costs, than other Tasmanians.

### SELECTED INCOME AND EXPENDITURE CHARACTERISTICS, Tasmanian regions

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
	\$	\$	\$	\$
Personal median weekly income(a)(b)	332	306	289	314
Household median weekly income(a)(b)	648	601	574	618
Mean wage and salary income per year(c)(d)	31,058	29,716	29,765	30,411
Median weekly rent(a)(b)	109	103	94	104
Median monthly housing loan repayments(a)(b)	645	596	555	614

(a) Source: 2001 Census.

(b) Median refers to the middle point when a range of values is ordered from smallest to largest.

(c) Mean wage and salary earnings refers to the sum of all wage and salary earnings divided by the number of wage and salary earners.

(d) For 2000-01 financial year (Source: Australian Taxation Office, Income Tax Data).

[About this Release](#)

[Contents](#)

[Contents](#) >> [Industry overview](#) >> Small business

In 2000-01, in the Greater Hobart-Southern Region there were 14,099 small businesses, 44.4% of Tasmania's 31,770 small businesses.

The average income of Tasmanian small businesses was \$246,600 in 2000-01. The highest average income was in the Greater Hobart-Southern Region, \$251,500, followed by the Mersey-Lyell Region, \$246,400, and the Northern Region, \$239,900.

Note: these data are based on experimental estimates and therefore should be used with care. The publication Experimental Estimates, Regional Small Business Statistics, Australia (cat. no. 5675.0) provides information on data quality and methodology.

### SMALL BUSINESS STATISTICS, Tasmanian Regions(a)(b)(c)(d)

	Number of businesses(e)	Total expenses	Total income	Profit	Average income
Region	no.	\$m	\$m	\$m	\$000
1995-96 r					
Greater Hobart-Southern	14,834	3,059.6	3,399.5	339.8	229.2
Northern	10,552	2,133.8	2,325.4	191.6	220.4

Mersey-Lyell	8,552	1,539.4	1,730.9	191.5	202.4
<b>Tasmania</b>	<b>33,938</b>	<b>6,732.8</b>	<b>7,455.8</b>	<b>722.9</b>	<b>219.7</b>
2000-01					
Greater Hobart-Southern	14,099	3,148.3	3,546.5	398.2	251.5
Northern	10,147	2,220.1	2,433.8	213.7	239.9
Mersey-Lyell	7,524	1,633.2	1,853.9	220.7	246.4
<b>Tasmania</b>	<b>31,770</b>	<b>7,001.5</b>	<b>7,834.2</b>	<b>832.7</b>	<b>246.6</b>

r revised

(a) 'Small business' refers to those businesses whose total income and/or expenses were \$10,000 or more, up to a limit of \$5 million, in the financial year and operate from a single location. Includes non-employing businesses. Note: this differs from the standard ABS small business definition.

(b) These estimates are considered experimental and should be used with caution.

(c) Data are derived using Australian Taxation Office (ATO) files for companies, partnerships and trusts and individuals for 1995-96 and 2000-01.

(d) Differences between Small Business and ABS Business Register data are due to differences in scope, reference period, statistical unit and the definition of data items.

(e) The decrease in the number of businesses operated by individuals and partnerships and trusts in 2000-01 should be interpreted with care. It could be because of administrative reasons e.g. it may reflect a different focus from the ATO in 2000-01, or a lower number of business tax submissions received by the due date.

From 1999-2000 to 2001-02, the number of claims lodged for workers' compensation in Tasmania decreased by 11.1% from 11,843 claims to 10,532 claims. Over the same period, all three regions experienced a decline in total claims.

- **Greater Hobart-Southern Region** - total claims decreased by 14.2%
- **Northern Region** - total claims decreased by 5.8%
- **Mersey-Lyell Region** - total claims decreased by 11.1%.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Information technology and communications](#) >> Information technology and communications - regional overview

At the 2001 Census, people in the Greater Hobart-Southern Region recorded the highest computer use and Internet use, 39.1% and 36.5% respectively, of the three Tasmanian Regions. For farms, the highest computer use and Internet use for business operations was recorded by farms in the Northern Region, 53% and 41% respectively.

There is a relationship between age and use of computers and the Internet. At the 2001 Census, people aged 0-24 years recorded the highest levels of computer use (46.0%). People aged 25-49 years recorded the highest levels of Internet use (42.2%).

### INFORMATION TECHNOLOGY AND COMMUNICATIONS, Regional overview

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
	%	%	%	%
<b>Computer use at home by age(a)</b>				
0-24 years	47.5	46.2	42.6	46.0

[Contents](#)

[Contents](#) >> [Information technology and communications](#) >> Computer use at home

At the 2001 Census, over one-third of people in Tasmania (37.4%) stated that they had used a personal computer at home in the week before the Census. Over half (59.3%) stated they had not.

For the regions:

- **Greater Hobart-Southern** - recorded the highest level of computer use of the three regions in the week before the Census (39.1%).
- **Northern Region** - recorded the second highest level of computer use of the three regions in the week before the Census (37.1%).
- **Mersey-Lyell** - recorded the lowest level of computer use of the three regions in the week before the Census (34.3%).

Just under half (48.7%) of all people in Kingborough local government area stated that they had used a personal computer in the week before the Census. This is the highest level of all local government areas in Tasmania and is followed closely by Hobart (47.9%), West Tamar (44.8%), Clarence (40.9%) and Meander Valley (38.5%). The lowest level of personal computer use was recorded in Central Highlands (25.4%).

[Contents](#) >> [Information technology and communications](#) >> [Computer use at home](#) >> Computer use at home by age

There is a relationship between age and computer use, with younger people reporting greater use of personal computers at home in the week before the 2001 Census.

For the following age groups:

- **0-24 years** - Almost half (46.0%) of all people reported they had used a computer in the week before the Census.
- **25-49 years** - Just under half (43.3%) of all people reported they had used a computer in the week before the Census.
- **50+ years** - One-fifth (20.7%) of all people reported they had used a computer in the week before the Census.

[Contents](#) >> [Information technology and communications](#) >> Internet use

At the 2001 Census, slightly over one-third of people in Tasmania (33.7%) stated that they had used the Internet in the week before the Census. Just under two-thirds (62.3%) stated they had not.

For the regions:

- **Greater Hobart-Southern** - The Region recorded the highest level of Internet use of the three regions in the week before the Census (36.5%).
- **Northern Region** - The Region recorded the second highest level of Internet use of the three regions in the week before the Census (32.5%).
- **Mersey-Lyell** - The Region recorded the lowest level of Internet use of the three regions in the week before the Census (29.1%).

Just over half of all people in Hobart local government area (51.0%) stated that they had used the Internet in the week before the Census. This is the highest level of all local government areas in Tasmania and is followed by Kingborough (44.3%), West Tamar (38.3%), Clarence (37.7%) and Launceston (34.2%). The lowest level of Internet use was recorded in Central Highlands (20.2%).

[About this Release](#)

[Contents](#)

[Contents](#) >> [Information technology and communications](#) >> [Internet use](#) >> Internet use by age

There is a relationship between age and Internet use, with people in the 25-49 age group reporting greater use of the Internet in the week before the 2001 Census.

For the following age groups:

- **0-24 years** - 38.8% of all people reported they had used the Internet in the week before the Census
- **25-49 years** - 42.2% of all people reported they had used the Internet in the week before the Census
- **50+ years** - 17.7% reported they had used the Internet in the week before the Census.

### INTERNET USE BY AGE, Tasmanian local government areas - Census 2001(a)(b)

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Information technology and communications](#) >> Farms using a computer and the Internet

### FARM USE OF COMPUTERS, 2001-02

An estimated 57% of Tasmanian farms had access to a computer in 2001-02. An estimated 50% of farms used a computer for business operations and 40% used the Internet for business operations. The highest computer and Internet use for business operations was recorded by farms in the Northern Region, 53% and 41% respectively.

Data on farm use of computers and the Internet for 2001-02 are not comparable with data collected previously.

#### FARMS USING A COMPUTER AND THE INTERNET(a), Tasmanian regions - 2001-02

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
Farms (no. at 30 June 2002)	1,060	1,471	1,496	4,027
Farms with access to a computer (%)	59	57	57	57
Farms with access to the Internet (%)	45	45	43	44
Using a computer for business operations %(b)	48	53	49	50
Using the Internet for business operations %(b)	40	41	38	40

(a) Includes establishments undertaking agricultural activity having an **Estimated Value of Agricultural Operations (EVAO)** of \$5,000 or more.

(b) Computer and Internet usage are derived items.

Source: Use of Information Technology on Farms, Australia (cat. no. 8150.0).

## FARM USE OF COMPUTERS, 1998, 1999, 2000

From March 1998 to June 2000, the proportion of farms using computers and the Internet in Tasmania increased from 36% to 57% of all farms recording computer use and from 12% to 35% of all farms recording Internet use.

In the Greater Hobart-Southern Region, computer use on farms increased from 37% to 60% and Internet use increased from 14% to 37%. In the Northern Region, computer use on farms increased from 37% to 55% and Internet use increased from 11% to 35%, and in the Mersey-Lyell Region computer use on farms increased from 34% to 55% and Internet use increased from 12% to 33%.

### FARMS USING A COMPUTER AND THE INTERNET(a), Tasmanian regions - 1998, 1999, 2000

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
	no.		%	%
Computer use (%)				
March 1998	37	37	34	36
March 1999	48	50	49	49
June 2000	60	55	55	57
Internet use (%)				
March 1998	14	11	12	12
March 1999	25	21	21	22
June 2000	37	35	33	35

(a) Includes establishments undertaking agricultural activity having an **Estimated Value of Agricultural Operations (EVAO)** of \$5,000 or more.

In 2003-04, the average labour force participation rate in the Greater Hobart-Southern Region was 59.0%. This compares to the 2002-03 figure of 58.5% and the 2003-04 Tasmanian figure of 59.0%.

In 2003-04, there was an average of 55,600 employed males (up from 53,700 in 2002-03) and 49,200 employed females (up from 46,800 in 2002-03).

In 2003-04, there was an average of 4,500 unemployed males (down from 5,400 in 2002-03), while the male unemployment rate was 7.5% (down from 9.2% in 2002-03). In 2003-04, the number of unemployed females was 2,400 (down from 3,400 in 2002-03), while the female unemployment rate was 4.7% (down from 6.7% in 2002-03).

### CIVILIAN LABOUR FORCE STATUS(a), Greater Hobart-Southern Region: Annual average(b)(c)(d)(e)

	Employed	Unemployed	Unemployment rate	Participation rate	Civilian population aged 15 and over
Years	'000	'000	%	%	'000

Males					
1999-2000	53.1	5.5	9.4	66.1	88.7
2000-01	52.9	6.3	10.6	66.4	89.2
2001-02	52.1	6.2	10.7	64.9	89.8
2002-03	53.7	5.4	9.2	65.1	90.8
2003-04	55.6	4.5	7.5	65.2	92.2
Females					
1999-2000	44.1	3.9	8.1	51.2	93.7
2000-01	45.3	3.1	6.5	51.3	94.4
2001-02	44.5	3.5	7.3	50.6	95.0
2002-03	46.8	3.4	6.7	52.4	95.9
2003-04	49.2	2.4	4.7	53.1	97.3
Persons					
1999-2000	97.2	9.4	8.8	58.4	182.4
2000-01	98.2	9.5	8.8	58.7	183.6
2001-02	96.6	9.8	9.2	57.6	184.8
2002-03	100.5	8.8	8.0	58.5	186.7
2003-04	104.8	7.0	6.2	59.0	189.5

(a) Persons aged 15 years and over.

(b) Averages calculated on monthly original estimates.

(c) Differences between the aggregation of regions and state-level totals may vary due to the annual average methodology used.

(d) A new Labour Force Survey questionnaire was introduced in April 2001. As a result, a small number of definitions have been modified resulting in revisions to core labour force series from 1986 to 2001. This process did not include revisions to labour force region data and differences may occur between the aggregation of regions and state totals.

(e) Labour Force Survey estimates at the regional level have been revised based on population benchmarks for Labour Force Statistical Regions for the period January 1999 to January 2004. As a result, the regional estimates for years 1999-2000 to 2002-03 will differ slightly from those published in previous releases.

(a) Persons aged 15 years and over.

(b) Averages calculated on monthly original estimates.

(c) Differences between the aggregation of regions and state-level totals may vary due to the annual average methodology used.

(d) A new Labour Force Survey questionnaire was introduced in April 2001. As a result, a small number of definitions have been modified resulting in revisions to core labour force series from 1986 to 2001. This process did not include revisions to labour force region data and differences may occur between the aggregation of regions and state totals.

(e) Labour Force Survey estimates at the regional level have been revised based on population benchmarks for Labour Force Statistical Regions for the period January 1999 to January 2004. As a result, the regional estimates for years 1999-2000 to 2002-03 will differ slightly from those published in previous releases.

[Contents](#) >> [Labour](#) >> Persons employed

The number of persons employed is a key indicator of the pace of economic growth. Data are available for labour force regions. In Tasmania these regions are the Greater Hobart-Southern Region, the Northern Region and the Mersey-Lyell Region.

Labour force data are also available by industry and occupation.

### FURTHER INFORMATION

A map of Tasmanian labour force regions.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Labour](#) >> [Persons unemployed](#) >> Greater Hobart-Southern Region

In 2003-04, there was an average of 7,000 unemployed people in the Greater Hobart-Southern Region. Of these, 4,500 were males (64.3% of people unemployed) and 2,400 were females (34.3% of people unemployed).

From 2002-03 to 2003-04, the number of people unemployed in the Region decreased by 1,800, or 20.5%, and from 1999-2000 to 2003-04 the decrease was 2,400, or 25.5%.

Some 78.6% of people unemployed in the Greater Hobart-Southern Region in 2003-04 were looking for full-time work. Some 84.4% of unemployed males and 70.8% of unemployed females were looking for full-time work.

### UNEMPLOYED PERSONS(a), Greater Hobart-Southern Region: Annual average(b)(c)(d)(e)

	1999-2000	2000-01	2001-02	2002-03	2003-04
	'000	'000	'000	'000	'000
Males					
Looking for full-time work	4.8	5.5	5.5	4.7	3.8
Looking for part-time work	*0.7	*0.8	*0.8	*0.7	*0.7

Total unemployed	5.5	6.3	6.2	5.4	4.5
Females					
Looking for full-time work	2.6	2.0	2.6	2.1	1.7
Looking for part-time work	1.3	*1.1	*0.9	1.2	*0.7
Total unemployed	3.9	3.1	3.5	3.4	2.4
Persons					
Looking for full-time work	7.4	7.5	8.0	6.8	5.5
Looking for part-time work	2.0	1.9	1.7	2.0	1.5
Total unemployed	9.4	9.5	9.8	8.8	7.0

\* estimate has a relative standard error of between 25% and 50% and should be used with caution. Data is subject to sampling variability too high for most practical purposes.

(a) Persons aged 15 years and over.

(b) Averages calculated on monthly original estimates.

(c) Differences between the aggregation of regions and state-level totals may vary due to the annual average methodology used.

(d) A new Labour Force Survey questionnaire was introduced in April 2001. As a result, a small number of definitions have been modified resulting in revisions to core labour force series from 1986 to 2001. This process did not include revisions to labour force region data and differences may occur between the aggregation of regions and state totals.

(e) Labour Force Survey estimates at the regional level have been revised based on population benchmarks for Labour Force Statistical Regions for the period January 1999 to January 2004. As a result, the regional estimates for years 1999-2000 to 2002-03 will differ slightly from those published in previous releases.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Local government finance](#) >> Local government finance - regional overview

Local government is a sphere of government that provides public services generally suited to delivery at the community or the local/regional level. It operates alongside state and Commonwealth governments, although local government is not recognised under the Commonwealth Constitution. However, it has important relationships with the Commonwealth and state governments through an array of transfers including financial assistance grants, subsidies, tax exemptions, levies, charges and so on.

The functions of councils in Tasmania are prescribed under Section 20 of the **Local Government Act 1993** (which is currently under review). Services they provide include garbage and waste disposal facilities, roads and footpaths, drainage, water supply and sewerage, health inspection, cemeteries, park and recreation facilities, gardens, and a range of community services.

### KEY PERFORMANCE INDICATORS

Key Performance Indicators (KPIs) provide Tasmanian councils - and the public - with a basis for measuring and comparing council performance over time. A KPI project, initially funded by the Commonwealth government, has been progressed jointly by the state government, the Local Government Association of Tasmania and Local Government Managers Australia, with some assistance from the Australian Bureau of Statistics. Data have been collected, analysed and published for the 1999-2000, 2000-01, 2001-02 and 2002-03 financial years. The performance indicators are contained in the report of the KPI Committee, [Measuring Council Performance in Tasmania, Department of Premier and Cabinet](#).

.. not applicable

(a) The number of properties in each local government area.

(b) The capital value less a deduction for visible improvements. In the case of vacant land it is based on sales.

(c) The capital sum which a property might be expected to realise if offered for sale on reasonable terms and conditions.

(d) The gross annual income a person owning land might reasonably expect to obtain by letting it to a tenant upon reasonable terms and conditions.

- (e) The year in which the values are effective for rates and taxes.
- (f) Due to rounding, differences may occur between sums of components and totals.
- (g) Totals in this table should be used with caution as they are calculated from values proclaimed for different years.

[Contents](#) >> [Local government finance](#) >> Revenue

In 2002-03, rates and annual charges were the major sources of revenue for Tasmanian councils (providing 59.4% of revenue). Devonport had the highest proportion of rates and annual charges (69.4% of revenue), followed by Glenorchy (67.6%) and Hobart (67.3%). Hobart had the lowest dependency on grants and contributions (8.1%) as a source of revenue, while Flinders had the highest (66.4%).

### LOCAL GOVERNMENT REVENUE, Tasmanian local government councils - 2002-03

[Contents](#) >> [Local government finance](#) >> Expenses

In 2002-03, the operating expenses of all Tasmanian councils totalled \$532.5 million. Depreciation and amortisation accounted for nearly a quarter (24.7%) of these expenses. Depreciation and amortisation expenses constituted 46.1% of total expenses for Central Highlands, the highest proportion in the state, reflecting its relatively high proportion of council-owned roads.

Interest accounted for only 1.7% of total operating expenses for Tasmanian councils, indicating low levels of overall debt. Interest expense was the highest proportion of total expenses for George Town (5.1%) and Brighton (4.1%).

### LOCAL GOVERNMENT EXPENSES, Tasmanian local government councils - 2002-03

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 21/01/2005[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Local government finance](#) >> [Expenses](#) >> Selected expenses

The following extended table presents only a selected list of expenses split by function. While all local government expenses could be attributed to a specific function, [Measuring Council Performance in Tasmania](#), from which the data in this table is sourced, does not publish this level of detail.

In 2002-03, of the selected expenses split by function in this table, governance was the highest area of expense for Tasmanian local government councils (at 16.2% of functions shown). Expenditure on governance was the highest proportion of total expenses for Latrobe (36.3% of functions shown).

Other high areas of expense for Tasmanian local governments were roads, footpaths and traffic (accounting for 15.2% of functions shown) and water systems (14.4% of functions shown).

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 21/01/2005[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Local government finance](#) >> Surplus/deficit

In 2002-03, the total operating result before abnormal gains/losses for all Tasmanian councils was a surplus of \$17.5 million. On the same basis, 19 out of 29 councils delivered a surplus, the highest being returned by Clarence (\$14.9 million). The remaining 10 councils showed a deficit, the highest deficit being recorded by Hobart (\$7.2 million). Overall, before abnormal gains/losses, councils in all regions delivered a net surplus: councils in the Greater Hobart-Southern Region delivered a net surplus of \$6.2 million; and councils in the Northern Region and Mersey-Lyell Region delivered net surpluses of \$5.9 million and \$5.4 million respectively.

Glenorchy council reported an unusual abnormal gain of \$39.6 million, with most of this gain being previously unrecognised stormwater and drainage assets brought to account in 2002-03. Dorset council reported an abnormal gain of \$27.2 million also due to asset revaluation and Burnie council reported an abnormal gain of \$10.4 million from previously unrecognised assets.

### LOCAL GOVERNMENT SURPLUS/DEFICIT, Tasmanian local government councils - 2002-03

[About this Release](#)

[Contents](#)

[Contents](#) >> [Local government finance](#) >> Balance sheet

In 2002-03, the total net assets of all councils in Tasmania was \$4,366 million, which equates to net assets of \$9,151 per head of population.

The local government council of Flinders recorded net assets per head of population of \$47,029, significantly higher than other local government councils, because the council rather than the state government owns and is responsible for the provision of most of its roads. Central Highlands council also recorded high net assets per head of population (\$27,393) due to a high level of non-current assets relating to roads.

### BALANCE SHEET, Tasmanian local government councils - 2002-03

Tasmania's geology lends itself to a very active minerals exploration and mining industry in many areas of the state. Mines are mainly in the west, while processing plants are located near ports or railways.

A **map showing locations of mines and processing plants** is available from the Mineral Resources Tasmania web site.

[Contents](#) >> [Mining](#) >> Mining production

Tasmanian mining operations are mainly concentrated in the Mersey-Lyell and Northern Regions of the state. Both metallic minerals and non-metallic minerals, including fuel minerals, are produced.

Tasmania's most significant known metallic and non-metallic resources are:

- **metallic minerals** - base metals (copper, lead, zinc, nickel and tin), gold and iron ore
- **non-metallic (excluding fuel) minerals** - clay and limestone.

The state's significant known energy resources are:

- **fuel minerals** - coal

[About this Release](#)

[Contents](#)

[Contents](#) >> [Mining](#) >> [Mining production](#) >> Greater Hobart-Southern Region

The Greater Hobart-Southern Region of Tasmania is not rich in minerals. A thermal coal supply is located at Hamilton, north west of Hobart. Approximately four to six years supply of coal, or about 600 kt, await production. As at November 2002, a mining lease over the deposit was to change hands, from Kimbolton Coal Company Pty Ltd to Australian Cement Holdings Pty Ltd.

### FURTHER INFORMATION

Information about the **proposed acquisition of Kimbolton Coal Company Pty Ltd by Australian Cement Holdings Pty Ltd (November 2002)** is available from the Australian Competition and Consumer Commission web site.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Mining](#) >> [Mining production](#) >> Northern Region

### METALLIC MINERALS

The Northern Region of Tasmania has one mining operation for the production of metallic minerals, that being gold, at Beaconsfield, which was one of Australia's richest and deepest mines until its closure in 1914. Gold exploration in Tasmania is being refocused towards the abandoned gold mines in the north east of Tasmania and toward the Beaconsfield mine.

For production, employment and capital expenditure details of the Beaconsfield gold mine, see under [Gold](#) production on this web site (under Statistics - Tasmania).

### FUEL MINERALS

Fuel mineral deposits are evident throughout Tasmania, but they are most important in the north east. Coal and peat are mined in Tasmania, however peat (sphagnum moss) is mostly used for horticulture rather than fuel. Coal mined by the Cornwall Coal Company north of Mt Nicholas, near St Marys, is not of export quality and is used by local industry.

For production and employment details of the Cornwall Coal Company, see under [Fuel minerals](#) on this web site (under Statistics - Tasmania).

## NON-METALLIC MINERALS

Non-metallic minerals (excluding fuel) are produced at a few quarries in the Northern Region of Tasmania, including:

- Beams Bros Pty Ltd, which produces limestone and dolomite at two locations in the Northern Region. One quarry is located at Flowery Gully and the other at Cressy.
- David Mitchell - Tasmania, which produces limestone at a Mole Creek quarry.

For further information on the production of non-metallic minerals, see [Non-Metallic \(excluding fuel\) minerals](#) on this web site (under Statistics - Tasmania).

### METALLIC MINERALS

The Mersey-Lyell Region of Tasmania is famous for its mineralisation, particularly for metallic minerals: base metals, gold and iron ore.

#### Base metals

Three main mining operations in the Mersey-Lyell Region extract base metals:

- Pasminco Mining Limited operates a silver-lead-zinc mine at Rosebery on Tasmania's west coast. For production, employment and capital expenditure details, see [Pasminco Mining Rosebery](#) on this web site (under Statistics - Tasmania).
- Renison Bell Limited operates one of the world's major tin mines at Renison Bell, north of Queenstown. For production, employment and capital expenditure details, see [Renison Bell Limited - Renison tin mine](#) on this web site (under Statistics - Tasmania).
- Copper Mines of Tasmania Pty Ltd operates a world-class copper mine at Mt Lyell, in the Queenstown area of western Tasmania. For production, employment and capital expenditure details, see [Copper Mines of Tasmania Pty Ltd - Mt Lyell mine](#) on this web site (under Statistics - Tasmania).

## Gold

Gold is mined south of Rosebery at the new Henty Gold Mine, which is operated by Goldfields Limited. It was officially opened in July 1996. For production, employment and capital expenditure details of the Henty Mine, see under [Gold](#) production on this web site (under Statistics - Tasmania).

## Iron ore

Iron ore is mined at Savage River, the deposits being part of a mineralised belt west of Waratah and extending north east to Burnie and out to Bass Strait. For production, employment and capital expenditure details of the Savage River mine, see under [Iron ore](#) on this web site (under Statistics - Tasmania).

## NON-METALLIC MINERALS

At Railton, in Tasmania's central north, one of the world's largest deposits of **limestone** is mined to provide Australian Cement Holdings with the raw material to make cement. For further information, see **Australian Cement Holdings** on the Department of Infrastructure, Energy and Resources web site, <http://www.dier.tas.gov.au>

Other quarries located in the Mersey-Lyell Region produce dolomite and silica flour. These include:

- Circular Head Dolomite Trading Co. Pty Ltd at Smithton, which extracts dolomite
- Cominex mine at Corinna, which produces silica flour.

For further information on production of non-metallic minerals, see [Non-Metallic \(excluding fuel\) minerals](#) on this web site (under Statistics - Tasmania).

[Contents](#) >> [Mining](#) >> [Mineral processing](#) >> Northern Region

There are two main mineral processing plants in the Northern Region of Tasmania, those operated by Comalco Aluminium Limited and Tasmanian Electro Metallurgical Company (TEMCO).

- The Comalco Aluminium Limited plant is at Bell Bay, near George Town. At the Comalco smelter, alumina produced from bauxite in Queensland is converted to aluminium to produce such products as the aluminium powder used in explosives and in metallic paints. For further information on production, employment and capital expenditure, see [Comlaco Aluminium \(Bell Bay\) Limited](#) on this web site (under Statistics - Tasmania).
- The Tasmanian Electro Metallurgical Company (TEMCO) plant is also at Bell Bay. At the TEMCO smelter, ferro- and silico-manganese alloys are produced by using manganese ore, iron ore and coal from mainland Australia and mixing them with local quartzite and limestone. For further information on production, employment and capital expenditure, see [Tasmanian Electro Metallurgical Company \(TEMCO\)](#) on this web site (under Statistics - Tasmania).

[About this Release](#)

[Contents](#)

[Contents](#) >> [Population](#) >> Population - regional overview

While Tasmania is the most decentralised state in terms of population distribution, with nearly 60% of the population living outside the capital city statistical division, the population is concentrated in three main areas: the urban areas of Hobart, Launceston and Burnie/Devonport. Large areas of the state, including the Central Plateau, South West and West Coast (in the Southern and Mersey-Lyell statistical divisions), are uninhabited or sparsely inhabited.

- **Estimated resident population** - At 30 June 2003, Tasmania's resident population was estimated at 477,077, or 2.4% of the Australian total (19,880,599). On a regional basis, the Greater Hobart-Southern Region accounted for 49.2% of the population.
- **Population growth** - In the 12 months to June 2003, the Tasmanian resident population increased by 0.9%. Some 24 of Tasmania's 29 local government areas recorded population growth, with George Town municipality recording the largest growth rate of 3.1%.
- **Median age** - At 30 June 2003, Tasmania had a median age of 38.1 years. There were seven local government areas with median ages above 40 years: Glamorgan/Spring Bay, Break O'Day, Flinders, Tasman, Central Highlands, Latrobe and King Island.

Note: These figures have subsequently been revised at the state level, but the updated figures are not available at the regional level.

[Contents](#) >> [Population](#) >> Population change

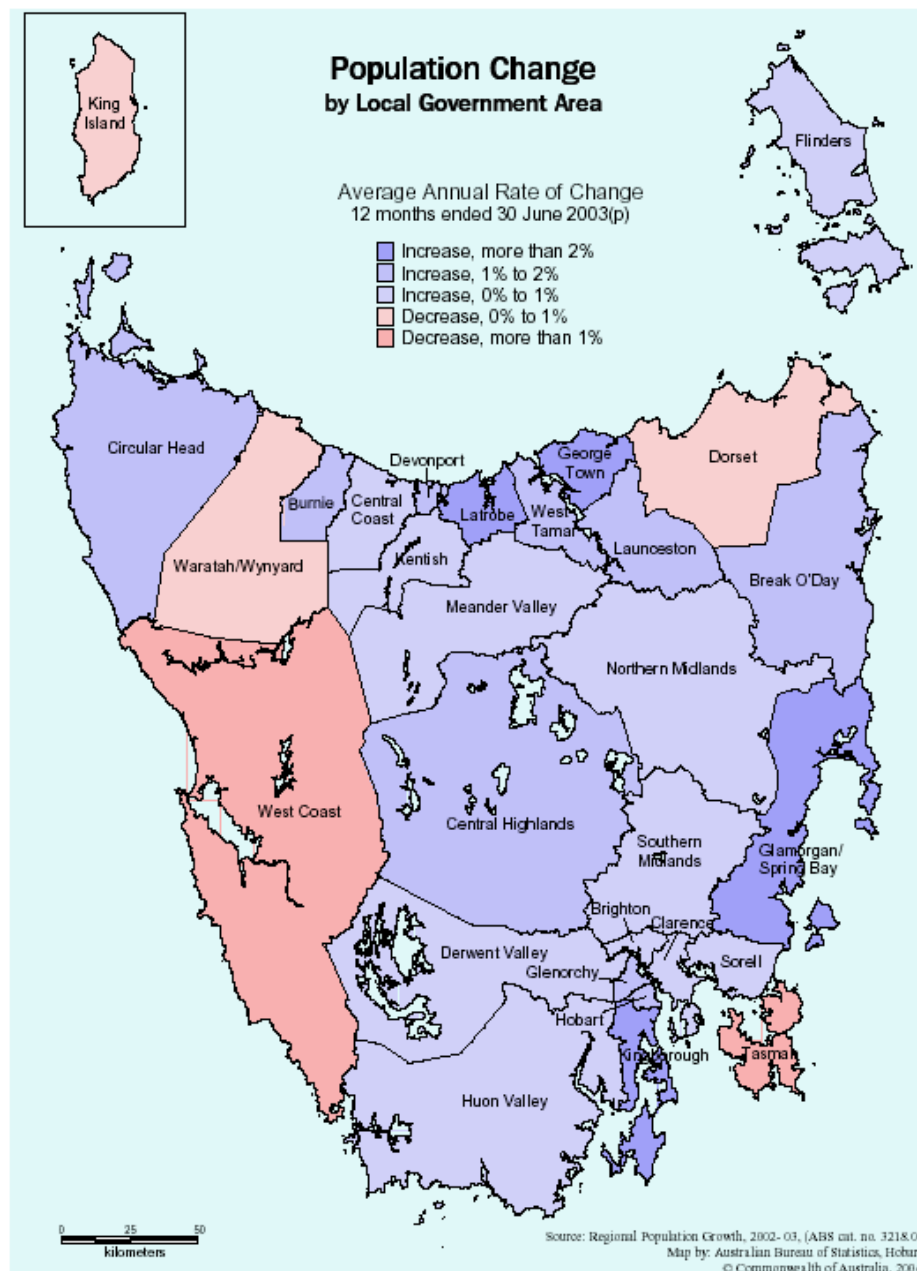

All statistical divisions recorded population increases in the 12 months to June 2003. The Northern statistical division recorded an increase of 1.1%, Greater Hobart 1.0%, Southern 0.9% and Mersey-Lyell 0.7%.

In the 12 months to June 2003, the Tasmanian resident population increased by 0.9%. Some 24 of Tasmania's 29 local government areas recorded population growth, with George Town municipality recording the largest growth rate of 3.1%, followed by Kingborough, 2.1%, Latrobe, 2.1%, Glamorgan/Spring Bay, 2.1%, Break O'Day, 1.5%, Central Highlands, 1.5%, and Devonport, 1.5%.

In the same period, there was a 3.0% decrease in the population of the West Coast municipality, while Tasman and Dorset followed with population decreases of 2.2% and 0.9% respectively.

Note: These figures have subsequently been revised at the state level, but the updated figures are not available at the regional level.

Tasmania's population, like Australia's, continues to age. At 30 June 2003, the median age (the age at which half the population is older and half is younger) of the Tasmanian population was 38.1 years, the second highest of all the states and territories.

There were seven local government areas with median ages above 40 years: Glamorgan/Spring Bay (46.1 years), Break O'Day (44.8 years), Flinders (44.5 years), Tasman (45.0 years), King Island (41.6 years), Central Highlands (40.6 years) and Latrobe (40.4 years). Brighton local government area had the lowest median age, 30.7 years.

Note: These figures have subsequently been revised at the state level, but the updated figures are not available at the regional level.

[Contents](#) >> [Population](#) >> [Population composition](#) >> Age and sex (number)

At 30 June 2003, there were estimated to be more females than males in all regions of Tasmania.

**Children aged 0-14 years** - Some 97,311 Tasmanians were estimated to be aged 0-14 years (20.4% of all Tasmanians). The Mersey-Lyell Region had the highest proportion of its population aged 0-14 years (21.1% of the region's population), with 22,615 people. In the Greater Hobart-Southern Region, there were 47,012 people in this age group; and in the Northern Region, there were 27,684.

**People aged 15-64 years** - Some 312,240 Tasmanians were aged 15-64 years (65.4% of all Tasmanians). The Greater Hobart-Southern Region had the highest proportion of its population aged 15-64 years (66.1% of the region's population), with 155,219 people. In the Northern Region, there were 87,992 people in this age group; and in the Mersey-Lyell Region, there were 69,029.

**People aged 65 years and over** - Some 67,526 Tasmanians were aged 65 years and over (14.2% of all Tasmanians). In the Northern Region, there were 19,391 people (14.4% of the region's population) aged 65 years and over, and in the Mersey-Lyell Region, there were 15,472 people (14.4% of the region's population) in this age group. In the Greater Hobart-Southern Region, there were 32,663 people (13.9% of the region's population) aged 65 years and over.

Note: These figures have subsequently been revised at the state level, but the updated figures are not available at the regional level.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Population](#) >> [Population composition](#) >> Age and sex (proportion)

At 30 June 2003, there were estimated to be a greater proportion of females to males in Tasmania, 50.7% compared to 49.3%. The proportion of females in the population varied from 50.8% in the Greater Hobart-Southern Region, to 50.7% in the Northern Region and 50.5% in the Mersey-Lyell Region.

**Children aged 0-14 years** - Some 20.4% of Tasmania's population were aged 0-14 years. The Mersey-Lyell Region had the highest proportion of its population aged 0-14 years (21.1% of the region's population). The local government area with the greatest proportion of its population aged 0-14 years was Brighton, with 28.1% of its population in this age group.

**People aged 15-64 years** -Some 65.4% of Tasmania's population were aged 15-64 years. The Greater Hobart-Southern Region had the highest proportion of its population aged 15-64 years (66.1% of the region's population).

**People aged 65 years and over** - Some 67,526 Tasmanians were aged 65 years and over (14.2% of all Tasmanians). The Northern Region and the Mersey-Lyell Region both had the highest proportion of its population aged 65 years and over (14.4% of the region's population). **Males aged 65 years and over** accounted for 6.3% of the Tasmanian population. The local government areas with the greatest proportion of males aged 65 years and over were Glamorgan/Spring Bay with 10.0% and Tasman, with 8.8%. **Females aged 65 years and over** accounted for 7.9% of the Tasmanian population. The local government areas with the greatest proportions of females aged 65 years and over were Glamorgan/Spring Bay with 9.6%, Glenorchy with 9.4% and Devonport with 9.4%.

Note: These figures have subsequently been revised at the state level, but the updated figures are not available at the regional level.

Page tools: [Print Page](#)

[About this Release](#)

[Contents](#)

[Contents](#) >> [Population](#) >> Family type

At the 2001 Census, some 82.1% of the 124,078 families counted in Tasmania contained couples. Of these, 36.4% were couples with dependent children, 38.4% were couples without children and 7.3% were couples with non-dependent children. Some 16.5% of Tasmanian families were one-parent families.

**Couples with dependent children** - Circular Head and Kingborough local government areas (LGAs) had the largest percentage of couples with dependent children, 42.5% and 42.3% respectively. Glamorgan/Spring Bay and Tasman had the smallest percentage of couples with dependent children, 27.0% and 30.9% respectively.

**Couples without children** - Glamorgan/Spring Bay and Tasman had the largest percentage of couples without children, 54.9% and 51.3% respectively. Brighton had the smallest percentage of couples without children, 26.0%, well below all other LGAs.

**Couples with non-dependent children** - King Island, Latrobe, and Derwent Valley recorded the largest percentage of couples with non-dependent children, with 9.3%, 8.9% and 8.8% respectively.

**One-parent families** - Brighton, Glenorchy and Launceston had the largest percentage of one-parent families, with 24.8%, 21.5% and 20.2% respectively.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003

[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Population](#) >> Birthplace

At the 2001 Census, some 89.5% of people counted in Tasmania who stated a birthplace were Australian-born. The largest overseas-born group was from the United Kingdom and Ireland, 21,910 people, followed by New Zealand, 3,590, the Netherlands, 2,484, and Germany, 1,909.

Of Tasmanian local government areas (LGAs), the LGAs with the highest proportions of their populations stating that they were born in Australia were Southern Midlands, with 95.2% of its population born in Australia, Brighton, 94.9%, Central Highlands, 94.3% and Dorset, 94.1%. The Greater Hobart-Southern Region was the Region with the lowest proportion of its population born in Australia. In that Region, Hobart with 81.9% of its population born in Australia and Kingborough with 83.4% had the lowest proportions of their populations born in Australia.

[Contents](#) >> [Population](#) >> Births

From 2001 to 2002, there was a decrease of 6.6% in the number of births in Tasmania. This decrease came after an increase of 13.0% in the number of births between 2000 to 2001.

Between 1998 and 2002, the Greater Hobart-Southern Region recorded the largest increase in the number of births, 6.5%, followed by the Northern Region, 0.9%. The Mersey-Lyell Region recorded a decrease in the number of births of 11.9%.

Between 1998 and 2002, the Flinders local government area recorded the largest percentage increase in the number of births, 100.0% (from 6 births to 12), followed by Brighton, 24.8%, George Town, 23.9%, and Kingborough 23.4%. The Tasman local government area recorded the largest decrease in births over this period, 56.6% (from 53 births to 23).

Note: These figures have subsequently been revised at the state level, but the updated figures are not available at the regional level.

Tasmanians are becoming more aware of the physical, social and psychological benefits to be gained through sport and recreation. These benefits are not confined to individuals; there are important social and economic benefits that extend to the wider community. The Tasmanian sport and recreation industry consists of state, regional and local community sport and recreation groups, facility providers, commercial operators and both local and state government bodies.

The Department of Economic Development's division of Sport and Recreation Tasmania works with four sectors within the industry: sport, fitness, community recreation and outdoor recreation. For further information about the Department of Economic Development or Sport and Recreation Tasmania, see <http://www.development.tas.gov.au>.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Sport and recreation](#) >> [Sport](#) >> Age and sex of adults participating in sports and physical activities

In the 12 months before interview in 2002, an estimated 207,900 Tasmanian adults aged 18 years and over participated in at least one sporting or physical recreation activity. This was 60.3% of Tasmania's adult population. The participation rate of 63.3% for males was higher than the female participation rate of 57.4%. Overall, participation rates generally decreased as age increased.

Adults in Greater Hobart were more likely to participate in a sport or recreational activity than adults in the rest of Tasmania (62.1% compared with 59.0%). However, for adults aged 18-24 years the participation rate was lower in Greater Hobart, 73.5%, compared with 77.1% in the rest of Tasmania.

### ADULTS PARTICIPATING IN SPORT AND PHYSICAL ACTIVITIES, Tasmanian regions(a) - 2002

Walking for exercise was the most common sport or physical recreation activity for Tasmanian adults aged 18 years and over in the 12 months before interview in 2002, with 25.3% participating. This was followed by swimming (8.2%) and aerobics/fitness (7.5%).

Walking for exercise was the most common activity in both Greater Hobart (24.9%) and the rest of Tasmania (25.5%). In Greater Hobart, this was followed by aerobics/fitness (10.7%) and swimming (9.9%); whereas, in the rest of Tasmania, fishing (7.7%) and swimming (7.0%) followed walking for exercise in popularity.

### ADULTS PARTICIPATING IN SELECTED ACTIVITIES, Tasmanian regions(a) - 2002

[Contents](#) >> [Sport and recreation](#) >> [Recreation](#) >> National parks attendance and walker registrations

Tasmania's National Parks are an attraction for Tasmanians and visitors from interstate and overseas, who engage in a number of recreational activities such as bushwalking, boating, skiing, camping and rafting.

### NATIONAL PARKS ATTENDANCE

In 2002-03, Cradle Mountain (Lake Dove) had the most visits (209,000), a 17.0% increase on the previous year. Another popular National Park was Freycinet, which 193,700 people visited.

#### NATIONAL PARKS, PERSON VISITS(a)

	Cradle Mountain(b) (Lake Dove)	Lake St Clair(b) (Cynthia Bay)	Mt Field(c)	Freycinet(c)	Narawntapu(d) (Bakers Beach)	Mole Creek Karst(e) (Marakoopa Cave)	Maria Island (Darlington)
	no.	no.	no.	no.	no.	no.	no.
1999-2000	182,100	111,600	130,700	186,800	33,500	29,460	13,213
2000-01	168,700	111,800	138,700	163,600	34,300	26,788	12,820

2001-02	178,600	107,800	105,000	167,800	35,800	26,103	12,598
2002-03	209,000	134,500	116,400	193,700	38,900	28,648	13,337

(a) For all parks except Narawntapu, the unit of measurement is a person visit. A 'person visit' occurs when a person enters a National Park for purposes of heritage or nature appreciation, or recreation. Repeat entries are not included. Measurement occurs at the designated sites in brackets. Data are as at 11 May 2004.

(b) Estimated through a combination of traffic and visitor centre counts.

(c) Estimated through traffic and visitor centre counts and survey findings.

(d) Measured as a person entry, which occurs whenever a visitor enters a site, from a combination of traffic and visitor centre counts.

(e) Number of people taken on a guided tour.

Source: Tasmanian Parks and Wildlife Service Division of the Department of Tourism, Parks, Heritage and the Arts.

## WALKER REGISTRATIONS

Throughout Tasmania, there are over 1,000 kilometres of established tracks and routes ranging from easy family walks of up to several hours duration to more demanding walks taking days, even weeks, in duration.

In 2002-03, of the main walking tracks for which walker registration statistics are collected, most registrations were recorded for the Overland Track, 8,154. The Overland Track runs for about 80 kilometres through the heart of the [Tasmanian Wilderness World Heritage Area](#).

### TRACKS IN NATIONAL PARKS, WALKER REGISTRATIONS(a)

	Overland(b)	South Coast(c)	Freycinet(d)	Port Davey(c)	Frenchmans Cap
	no.	no.	no.	no.	no.
1999-2000	7,240	1,011	2,784	272	807
2000-01	7,273	915	3,002	208	753
2001-02	7, 537	1,099	3,512	229	644
2002-03	8, 154	970	3,143	167	826

(a) Numbers include only walkers who registered and represented their intention. Data are as at 11 May 2004.

(b) Sum of registrations at Cradle Mt and Lake St Clair.

(c) Sum of registrations to walk the length of the track in any direction, irrespective of starting point.

(d) All overnight walkers registered in the park.

Source: Tasmanian Parks and Wildlife Service Division of the Department of Tourism, Parks, Heritage and the Arts.

## FURTHER INFORMATION

The latest statistics for visitor entries and walker registrations in Tasmania's National Parks are available from the Tasmanian [Parks and Wildlife Service](#) web site, under [Visitor Statistics](#).

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Sport and recreation](#) >> [Recreation](#) >> Participation in outdoor recreation activities

A total of 362,900 Tasmanians participated in outdoor recreational activities in the 12 months ending October 2000. State-wide, as in each region, day bushwalking was the most popular outdoor activity with a participation rate of 23.9%, followed by freshwater fishing (14.7%) and off-road recreational driving or trail bike riding (9.4%).

Participation in day bushwalking was highest in the Greater Hobart-Southern Region (26.3%), while participation in freshwater fishing was highest in the Northern Region (18.9%), and the Mersey-Lyell Region had the highest rate of participation in off-road recreational driving or trail bike riding (11.3%).

### PARTICIPATION IN SELECTED OUTDOOR RECREATION ACTIVITIES, Tasmanian regions - 2000(a)(b)

Outdoor recreation activities	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania(c)
NUMBER ('000)				
Day bushwalking	46.1	21.1	19.4	86.6

At 12 May 2004, there were 2,499 licensed premises selling liquor and providing accommodation in Tasmania, an increase of 25.1% from the 12 March 2003 figure of 1,998.

The Greater Hobart-Southern Region had the largest number of licensed premises in 2004 with 1,203, an increase of 25.2% from the 12 March 2003 figure of 961. This was followed by the Northern Region with 732 licensed premises and 564 in the Mersey-Lyell Region.

The Northern Region has the highest number of licensed premises per 100,000 people in 2003 and 2004, with 435 and 542 respectively.

### LICENSED PREMISES, liquor and accommodation, Tasmanian regions

Region	2003(a)		2004(b)

An estimated 37.8% (129,400) of Tasmanians aged 18 years and over had visited a Tasmanian pub, club or casino to use electronic gaming machines in the 12 months ended October 2000.

Tasmanians living in the Northern Region had the highest attendance rate for visits to Tasmanian pubs, clubs and casinos to use electronic gaming machines, with 39.8% doing so on at least one occasion during this period. An estimated 39.0% from the Mersey-Lyell Region and 36.1% from the Greater Hobart-Southern Region attended a pub, club or casino to use electronic gaming machines.

These rates represent 60,300 persons from the Greater Hobart-Southern Region, 39,000 from the Northern Region and 30,100 from the Mersey-Lyell Region.

### VISITS TO PUBS, CLUBS AND CASINOS TO USE ELECTRONIC GAMING MACHINES, Tasmanian regions(a) - 2000(b)

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 07/10/2004[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Tourism](#) >> Visitors

According to Tourism Tasmania's [Tasmanian Visitor Survey](#), an estimated 652,200 visitors arrived by scheduled airline flights and Bass Strait ferries in 2002-03. Of these, 527,800 (80.9%) visited Greater Hobart, while 71.1% stayed at least one night in the region. Some 43.3% of scheduled air or sea visitors stayed at least one night in the Greater Launceston region.

### VISITORS TO TASMANIA, Tourism region visitors - 2002-03(a)(b)(c)

Tourism region(d)	Stayed one night or more		Total visitors	
	'000	%	'000	%
Greater Hobart	463.9	71.1	527.8	80.9
Southern	134.3	20.6	350.3	53.7
East Coast	220.2	33.8	279.7	42.9
West Coast	180.3	27.6	205.8	31.6
Northern	90.7	13.9	342.5	52.5
Greater Launceston	282.6	43.3	396.9	60.9
North West	221.5	34.0	340.9	52.3
Region not stated	44.0	6.7	6.4	1.0

<b>Total visitors to Tasmania</b>	<b>652.2</b>	<b>100.0</b>	<b>652.2</b>	<b>100.0</b>
-----------------------------------	--------------	--------------	--------------	--------------

- (a) These data are calculated from a sample survey. Results are subject to sampling error.
- (b) Visitors to Tasmania who travelled by scheduled air and sea services. Does not include navy or cruise visitors, or charter flights.
- (c) Sums of regions do not add to the total for Tasmania, because visitors can travel to more than one region, and stay for different lengths of time in each.
- (d) Refer to [Map of Tasmanian Tourism Regions](#).

[About this Release](#)

[Contents](#)

[Contents](#) >> [Tourism](#) >> [Visitors](#) >> [Visitor arrivals](#) >> Places visited: World Heritage Area

Tasmania's World Heritage Areas are a popular destination for visitors. Of the estimated 652,200 visitors who arrived by scheduled airline flights and Bass Strait ferries in 2002-03, approximately 179,300 (27.5%) visited Cradle Mountain, 130,800 (20.1%) visited Lake St Clair/Derwent Bridge and 95,500 (14.6%) visited Gordon River. These World Heritage Areas were also popular in previous years.

### ALL VISITORS(a), Selected Tasmanian World Heritage Areas visited

World Heritage Areas	2000-01	2001-02	2002-03	
	'000	'000	'000	% of all visitors
Cradle Mountain	141.4	139.4	179.3	27.5
Lake St Clair/Derwent Bridge	115.5	110.8	130.8	20.1
Gordon River(b)	106.9	82.3	95.5	14.6
Lake Pedder/Gordon Dam	27.3	20.1	28.1	4.3
Hartz Mts National Park	16.1	20.5	21.2	3.3
South-West National Park/Melaleuca Inlet	11.1	11.2	14.5	2.2

(a) Includes visitors who arrived on scheduled airline flights and Bass Strait ferries only.

(b) 2000-01 figure includes visitors to Gordon River and Franklin River. From 2001 onwards figure only includes visitors who went on the Gordon River Cruise.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 21/09/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Tourism](#) >> Accommodation

As at December 2003, there were 143 hotels, motels, guest houses and serviced apartments with 15 or more rooms in Tasmania, yielding a total capacity of 6,030 guest rooms. The Greater Hobart tourism region had the largest number of tourist accommodation establishments (45), the highest room occupancy rate (66.5%), and the greatest volume of takings (\$63.1 million) for 2003.

At the end of December 2003, tourist accommodation employed 4,244 people. Some 1,788 (42.1%) of these people were employed in establishments in the Greater Hobart tourism region, followed by 1,103 (26.0%) in the Greater Launceston tourism region. Just 53 people (1.2%) were employed by accommodation establishments in the Northern tourism region.

### TOURIST ACCOMMODATION, Tasmanian tourism regions(a)(b) - 2003

	Establishments	Rooms	Persons employed	Room occupancy rate	Takings
Tourism region(c)	no.	no.	no.	%	\$'000
Greater Hobart	45	2,351	1,788	66.5	63,059
Southern	6	155	88	47.7	2,476
East Coast	12	450	284	46.7	8,537

West Coast	11	461	303	42.9	6,639
Northern	4	122	53	47.8	1,488
Greater Launceston	32	1,416	1,103	56.3	27,962
North West	33	1,075	625	46.4	17,665
<b>Tasmania</b>	<b>143</b>	<b>6,030</b>	<b>4,244</b>	<b>56.4</b>	<b>127,827</b>

(a) Includes hotels, motels, guest houses and serviced apartments with 15 or more rooms or units. Excludes holiday flats, units and houses; caravan parks and visitor hostels.

(b) Establishment, employment and capacity items are as at December 2003. Takings and occupancy rates relate to the whole year.

(c) Refer to the [Map of Tasmanian Tourism Regions](#).

[Contents](#) >> [Transport](#) >> Motor vehicles on the register

In 2003, of the total number of registered motor vehicles, 48.7% (164,806) were registered in the Greater Hobart-Southern Region, 28.8% (97,610) in the Northern Region and 22.3% (75,522) in the Mersey-Lyell Region.

In 2003, of the total number of registered passenger vehicles, 50.4% (124,613) were registered in the Greater Hobart-Southern Region, followed by 28.3% (70,066) in the Northern Region and 21.2% (52,457) in the Mersey-Lyell Region.

In 2003, of the total number of trucks, 43.4% (5,034) were registered in the Greater Hobart-Southern Region, 30.3% (3,515) in the Northern Region and 25.8% (2,997) in the Mersey-Lyell Region.

### MOTOR VEHICLES ON REGISTER, Tasmanian regions(a) - 2003(b)

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania(c)
Vehicle type	no.	no.	no.	no.
Passenger vehicles	124,613	70,066	52,457	247,492
Light commercial vehicles	29,047	19,824	16,464	65,453
Trucks(d)	5,034	3,515	2,997	11,600

Other(e)	6,114	4,206	3,601	13,939
<b>Total(f)</b>	<b>164,806</b>	<b>97,610</b>	<b>75,522</b>	<b>338,484</b>

(a) The region reflects the residential address of the owner of the vehicle.

(b) As at 31 March.

(c) Vehicles with a postcode of owner in a state/territory other than in which their vehicle was registered are included in the Tasmanian total. Also included in this category are the owners which could not be specified into a statistical division.

(d) Includes articulated, rigid and non-freight carrying trucks.

(e) Includes campervans, buses and motor cycles.

(f) Data included in this table were aggregated into regions from postcode data. As a result, the sum of the components may not always equal the total. The Greater Hobart-Southern Region contains postcodes 7000-7190 and 40% of 7215. The Northern Region contains 7209-7304 excluding 7256 and 60% of 7215. The Mersey-Lyell Region contains 7256, and 7305-7470.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 20/05/2004[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Transport](#) >> Passenger vehicles by year of manufacture

Of the 247,492 passenger vehicles registered in Tasmania at 31 March 2003, some 64,642 or 26.1% were manufactured before 1985, while 59,426 or 24.0% were manufactured between the years 1996 and 2000, and 25,674 or 10.4% between the years 2001 and 2003.

In 2003, the Northern Region had the highest proportion of registered vehicles manufactured before 1985, with 27.2% (19,011). This was followed by the Greater Hobart-Southern Region with 26.6% (33,151), and then Mersey-Lyell with 23.7% (12,420). The Greater Hobart-Southern Region had the highest proportion of registered passenger vehicles manufactured between the years 2001 and 2003, with 11.4% (14,200). This was followed by the Northern Region with 9.8% (6,862), and then the Mersey-Lyell Region with 8.6% (4,529).

### PASSENGER VEHICLES, By year of manufacture: Tasmanian regions(a) - 2003(b)

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania(c)
Year of manufacture	no.	no.	no.	no.
To 1985	33,151	19,011	12,420	64,642
1986-1990	22,371	13,164	10,488	46,046

1991-1995	25,272	14,553	11,847	51,695
1996-2000	29,760	16,374	13,173	59,426
2001-2003(d)	14,200	6,862	4,529	25,674
Not stated	4	4	1	9
<b>Total(e)</b>	<b>124,757</b>	<b>69,969</b>	<b>52,458</b>	<b>247,492</b>

(a) The region reflects the residential address of the owner of the vehicle.

(b) As at 31 March 2003.

(c) Tasmanian total includes cases where the registered owner's residential address is located interstate but the vehicle is registered in Tasmania.

(d) This category includes motor vehicles manufactured in the calendar years 2001 and 2002 and in the first three months of 2003.

(e) Data included in this table were aggregated into regions from postcode data. As a result, the sum of the components may not always equal the total. The Greater Hobart-Southern Region contains postcodes 7000-7190 and 40% of 7215. The Northern Region contains 7209-7304 excluding 7256 and 60% of 7215. The Mersey-Lyell Region contains 7256, and 7305-7470.

Tasmanian roads can be categorised as local government, state and nationally owned, depending on which level of government is responsible for planning, designing and maintenance.

The Department of Infrastructure, Energy and Resources web site features a map of **Tasmanian roads** showing local government, state and nationally owned roads.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Transport](#) >> [Government roads](#) >> Local government roads

At January 2004, local government authorities maintained 14,021 kilometres of roads across Tasmania.

Greater Hobart-Southern Region had the longest total length of roads owned by local government (5,211 kilometres), followed by the Northern Region (5,175 kilometres) and then Mersey-Lyell (3,921 kilometres).

Of the 5,211 kilometres of roads owned by local government in the Greater-Hobart Southern Region, 24.0% were located in urban areas and 76.0% located in rural areas. Of the 4,890 kilometres of roads owned by local government in the Northern Region, 17.5 % were located in urban areas and 82.6% located in rural areas. Of the 3,921 kilometres of roads owned by local government in the Mersey-Lyell Region, 17.7% were located in urban areas and 82.3% located in rural areas.

Northern Midlands local government area (LGA) had the longest total length of roads owned by local government (979 kilometres). The majority of roads in this LGA were rural (867 kilometres, or 88.6%).

[About this Release](#)

[Contents](#)

[Contents](#) >> [Transport](#) >> [Government roads](#) >> State government roads

At February 2004, state government authorities maintained 3,403.36 kilometres of roads across Tasmania. (This figure excludes the National Highway, which is managed by the state government but funded by the Commonwealth government).

The Greater Hobart-Southern Region had the longest total length of roads owned by state government (1,381.93 kilometres), followed by the Mersey-Lyell Region (1,055.18 kilometres) and then the Northern Region (966.25 kilometres).

Of the 1,381.93 kilometres of roads owned by state government in the Greater-Hobart Southern Region, 90.7% were located in rural areas and 9.3% located in urban areas. Of the 966.25 kilometres of roads owned by state government in the Northern Region, 91.9% were located in rural areas and 8.1% located in urban areas. Of the 1,055.18 kilometres of roads owned by state government in the Mersey-Lyell Region, 95.2% were located in rural areas and 4.8% located in urban areas.

Central Highlands local government area (LGA) had the longest total length of roads owned by state government (315.97 kilometres), with the majority of roads being rural (312.01 kilometres, or 98.7%).

[About this Release](#)

[Contents](#)

[Contents](#) >> [Transport](#) >> [Government roads](#) >> National roads

At February 2004, there were 384.88 kilometres of national roads across Tasmania, comprising the National Highway. The National Highway is funded by the Commonwealth government but managed by the state government.

The Northern Region had the longest total length of national roads (180.32 kilometres), followed by Mersey-Lyell (117.94 kilometres) and then Greater Hobart-Southern Region (86.62 kilometres). All nationally owned roads in Tasmania were sealed.

Of the 180.32 kilometres of nationally owned roads in the Northern Region, some 96.7% were located in rural areas and 3.3% located in urban areas. In the Greater-Hobart Southern Region, some 97.1% were located in rural areas and 2.9% located in urban areas. In the Mersey-Lyell Region, some 86.1% were located in rural areas and 13.9% located in urban areas.

Northern Midlands local government area (LGA) had the longest total length of nationally owned roads (90.62 kilometres).

In terms of total road accident fatalities and injuries in the Greater Hobart-Southern Region, Hobart local government area (LGA) recorded the highest figures for 2002 and 2003, with 209 and 193 respectively. Other LGAs that recorded high figures were Clarence, Glenorchy and Kingborough. Hobart, Clarence, Glenorchy and Kingborough are all highly populated areas with higher traffic flows than many other areas of Tasmania.

### ROAD ACCIDENT FATALITIES AND INJURIES, Greater Hobart-Southern Region(a)

As at 1 June 2001, the Mersey-Lyell Region of Tasmania had the highest rates of people receiving the Age Pension, Newstart Allowance, Disability Support Pension and Family Tax Benefit in the state. The Greater Hobart-Southern Region had the highest proportion of Youth Allowance recipients in the state.

### SELECTED COMMONWEALTH GOVERNMENT PAYMENTS, Tasmanian regions(a) - 1 June 2001

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
Payment type	crude rate(b)	crude rate(b)	crude rate(b)	crude rate(b)
Age Pension	97.5	107.2	108.7	<b>102.8</b>
Newstart Allowance	43.8	42.6	47.1	<b>44.2</b>
Youth Allowance	28.6	28.3	25.3	<b>27.8</b>
Disability Support Pension	46.0	41.5	51.1	<b>45.9</b>
Family Tax Benefit	173.1	176.6	185.2	<b>176.8</b>

(a) Small area data in this table has been confidentialised. Totals for Tasmania may differ to those published in Statistics - Tasmania.

(b) Number of recipients per 1,000 persons. This is a crude rate that has not been adjusted to take into account the population eligible to receive payment. Therefore, care should be taken when interpreting figures.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Welfare](#) >> [Commonwealth government payments](#) >> [Payments for the aged](#) >> Age Pension

The Age Pension seeks to ensure that people who have reached retirement age have an adequate level of income. Subject to income and assets tests, men aged 65 years and over are eligible for the Age Pension. For women, it depends on their date of birth. From 1 July 1995, the minimum age of 60 years for women to receive the Age Pension began to increase. By 2013, the minimum qualifying age for women will be 65 years, making it the same as for men.

On 1 July 1998, a **pension bonus scheme** was introduced. People who qualify for an Age Pension but delay their retirement and keep working can receive a lump sum bonus payment when they stop working and take up their pension entitlement.

At 1 June 2001 the local government area of Break O'Day had the highest rate of Age Pensioners in the state, with 134.9 recipients per 1,000 persons. Brighton local government area had 63.6 Age Pensioners per 1,000 persons, the lowest rate in the state.

### RECIPIENTS OF AGE PENSION, Tasmanian local government areas(a)(b) - 1 June 2001

[About this Release](#)

[Contents](#)

[Contents](#) >> [Welfare](#) >> [Commonwealth government payments](#) >> [Payments for the aged](#) >> Wife Pension

A Wife Pension may be paid to the female partner of an age or disability support pensioner who is not receiving any other income support payment in her own right. New grants of Wife Pension ceased after 30 June 1995.

Some 72.7% of wife pensioners are partners of disability support pensioners, while 27.3% are partners of age pensioners (source: Statistics - Tasmania as at 7/1/2003). Wife Pensioners are most likely to be found in Tasman local government area, with 12.4 recipients per 1,000 persons.

### RECIPIENTS OF WIFE PENSION, Tasmanian local government areas(a)(b) - 1 June 2001

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Welfare](#) >> [Commonwealth government payments](#) >> [Payments for those with a disability or those who are sick](#) >> Disability Support Pension

The Disability Support Pension ensures an adequate level of income for people whose physical, intellectual or psychiatric impairment prevents them from working, or for people who are permanently blind.

As at 1 June 2001 the highest rates of Disability Support Pensioners were found in the local government areas of Central Highlands (76.2 per 1,000 persons) and Tasman (73.9 per 1,000 persons). King Island had the lowest rate of Disability Support Pensioners with 21.5 per 1,000 persons.

## 1362.6 - Regional Statistics, Tasmania, 2005

**ARCHIVED ISSUE** Released at 11:30 AM (CANBERRA TIME) 29/08/2003[Summary](#)[Downloads](#)[Explanatory Notes](#)[Related Information](#)[Past Releases](#)Page tools: [Print Page](#)[About this Release](#)[Contents](#)[Contents](#) >> [Welfare](#) >> [Commonwealth government payments](#) >> [Payments for those with a disability or those who are sick](#) >> Carer Allowance

Carer Allowance helps parents or carers to care for disabled children and adults at home. A person may get Carer Allowance if the child or adult needs a lot of additional care or attention in his or her own home. Assistance may be in the form of a fortnightly payment and/or a Health Care Card. Carer allowance may be paid in addition to Carer Payment or other payments such as the Age Pension.

As at 1 June 2001, recipients of Carer Allowance were most likely to be found in Brighton and Central Highlands. Both of these local government areas recorded rates of 21.7 recipients per 1,000 persons.

### RECIPIENTS OF CARER ALLOWANCE, Tasmanian local government areas(a)(b) - 1 June 2001

[Contents](#) >> [Welfare](#) >> [Commonwealth government payments](#) >> [Payments for those with a disability or those who are sick](#) >> Carer Payment

A Carer Payment is a payment to a person providing full-time personal care or supervision to a person with a disability, medical condition or who is frail aged. Carer Payment also allows maximum opportunities to participate in society through respite provisions and training, education and employment assistance.

At 1 June 2001, Carer Payment was made to 9.7 per 1,000 persons in the local government area of Break O'Day. Tasmania as a whole recorded 4.0 Carer Payment recipients per 1,000 persons.

[Contents](#) >> [Welfare](#) >> [Commonwealth government payments](#) >> [Payments for students and the unemployed](#) >> Newstart Allowance

To receive Newstart Allowance, a person must be:

- aged 21 years or over and under Age Pension age
- unemployed
- an Australian resident and currently in Australia
- prepared to enter into, comply with and vary an existing Preparing for Work Agreement
- satisfy an activity test.

At 1 June 2001, the highest rates of Newstart Allowance recipients in Tasmania were located in the local government areas of Break O'Day (72.5 per 1,000 persons) and the Central Highlands (70.8 per 1,000 persons). The lowest rates were found in King Island (22.6 per 1,000 persons) and Kingborough (26.9 per 1,000 persons). Tasmania as a whole had 44.2 recipients per 1,000 persons.

Youth Allowance, which was introduced by the Commonwealth Government in July 1998, is a payment for young Australians who are either:

- studying
- undertaking training
- looking for work
- temporarily incapacitated.

At 1 June 2001, Hobart local government area recorded a rate of 37.3 Youth Allowance recipients per 1,000 persons, the highest in the state. King Island recorded the lowest rate in the state, 13.9 recipients per 1,000 persons.

### RECIPIENTS OF YOUTH ALLOWANCE, Tasmanian local government areas(a)(b) - 1 June 2001

[Contents](#) >> [Welfare](#) >> [Commonwealth government payments](#) >> [Payments for students and the unemployed](#) >> Partner Allowance

Partner Allowance is intended to provide adequate income for partners of income-support recipients who face barriers to finding employment because of their previous limited participation in the workforce.

As at 1 June 2001, there were 20.1 recipients of Partner Allowance per 1,000 persons in the local government area of Break O'Day. Tasmania as a whole recorded 7.6 recipients per 1,000 persons.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Welfare](#) >> [Commonwealth government payments](#) >> [Payments for families with children](#) >> Family Tax Benefit

Family tax benefit is split into two payments:

- Part A is designed to help parents or guardians of children with the cost of raising those children
- Part B provides extra assistance to single income families, including sole parents, and especially families with a child under 5 years of age.

At 1 June 2001 there were 268.6 Family Tax Benefit recipients per 1,000 persons in the local government area of Brighton, the highest rate in Tasmania. Hobart had the lowest rate with 110.6 recipients per 1,000 persons.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Welfare](#) >> [Commonwealth government payments](#) >> [Payments for families with children](#) >> Child Care Benefit

Child Care Benefit helps with the cost of child care for:

- long day care
- family day care
- in-home care
- outside school hours care.
- vacation care
- registered care
- occasional care

The Benefit can be paid directly to child care services to reduce the fees charged, or as a lump sum to parents in October following the previous financial year. It is subject to an income test but is not subject to an assets test.

As at 1 June 2001, the highest rates of Child Care Benefit recipients were in the local government areas of Sorell (42.3 per 1,000 persons) and Kingborough (40.2 per 1,000 persons).

### RECIPIENTS OF CHILD CARE BENEFIT, Tasmanian local government areas(a)(b) - 1 June 2001

Recipients

Estimated resident population -  
as at 30 June 2001(c)

[Contents](#) >> [Welfare](#) >> [Disability support services](#) >> Service outlets

As at 22 May 2002, there were 188 disability service outlets in Tasmania, funded by the Commonwealth/State Disability Agreement, with a total approved funding limit of \$69.5m. Of these outlets, 49.5% were based in the Greater Hobart-Southern Region, which also received 56.2% of the total approved funding limit. Of the remaining outlets, 27.7% were found in the Northern Region, and 22.9% were located in the Mersey-Lyell Region.

Accommodation support services were the most common disability service type in Tasmania, accounting for 43.6% of all disability service outlets. They were also the most common disability service outlets in each Region.

### DISABILITY SERVICE OUTLETS, Tasmanian regions - 22 May 2002

	Greater Hobart- Southern	Northern	Mersey-Lyell	Tasmania
Service type	no.	no.	no.	no.
Accommodation support(a)	39	23	20	82
Community support(b)	5	3	2	10
Community access(c)	18	11	11	40

Respite(d)	3	5	4	12
Advocacy, information or referral(e)	22	8	4	34
Other support	6	2	2	10
<b>Total</b>	<b>93</b>	<b>52</b>	<b>43</b>	<b>188</b>
 <b>Total approved funding limit(\$m)</b>	 <b>39.1</b>	 <b>18.3</b>	 <b>12.2</b>	 <b>69.5</b>

(a) Services that provide accommodation to people with a disability and services that provide the support needed to enable a person with a disability to remain in their existing accommodation.

(b) Services that provide the support needed for a person with a disability to live in a non-institutional setting. Support for the basic needs of living such as meal preparation, dressing, transferring etc. are included under accommodation support.

(c) Services designed to provide opportunities for people with a disability to gain and use their abilities to enjoy their full potential for social independence. People who use these services are usually those not at school and not employed full time.

(d) Services specifically providing a short term break for families and other voluntary care givers of people with disabilities, to assist in supporting and maintaining the primary care giving relationship, while providing a positive experience for the person with a disability.

(e) Generally, advocacy, information and referral services in Tasmania provide a statewide service.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Welfare](#) >> [Disability support services](#) >> Persons receiving services

On the snapshot day of 22 May 2002, an estimated 1,388 people with disabilities accessed 1,669 services in Tasmania funded by the Commonwealth/State Disability Agreement. Of these services, the majority (76.2%) were received by people who identified their primary disability as intellectual. People with a physical disability received a further 6.2% of services.

State-wide, males accessed 54.0% of services, and females received the remaining 45.2% of services (source: Department of Health and Human Services).

### PERSONS WITH A DISABILITY RECEIVING SERVICES, Tasmanian regions(a) - 22 May 2002

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
Disability type(b)	no.	no.	no.	no.
Developmental delay	-	-	-	-
Intellectual	656	312	303	1,271
Autism	8	9	16	33
Physical	46	28	30	104
Acquired brain injury	32	43	11	86

Speech	3	-	-	3
Psychiatric	41	5	10	56
Neurological	39	26	21	86
Other(c)	8	16	6	30
<b>Total</b>	<b>833</b>	<b>439</b>	<b>397</b>	<b>1,669</b>

- nil or rounded to zero

(a) Refers to persons receiving a Commonwealth/State Disability Agreement funded service on the snapshot day. Note that it is possible for a single person to utilise more than one service on a given day.

(b) Refers to the person's primary disability.

(c) Includes 'not stated' and specific learning/ADD, deafblind, vision and hearing disability types.

[About this Release](#)

[Contents](#)

[Contents](#) >> [Welfare](#) >> [Disability support services](#) >> Utilisation of services

On the snapshot day of 22 May 2002, an estimated 1,388 people with disabilities utilised 1,669 services in Tasmania funded by the Commonwealth/State Disability Agreement. Of these services, 49.9% were utilised in the Greater Hobart-Southern Region, 26.3% in the Northern Region, and 23.8% were accessed in the Mersey-Lyell Region.

Accommodation support was the most common service, comprising 48.2% of the total services used. Community access was also prominent, contributing 40.0% to the total.

### UTILISATION OF DISABILITY SERVICES, Tasmanian regions(a) - 22 May 2002

	Greater Hobart-Southern	Northern	Mersey-Lyell	Tasmania
Service type	no.	no.	no.	no.
Accommodation support(b)	399	204	201	804
Community support(c)	73	31	47	151
Community access(d)	344	187	137	668
Respite(e)	17	17	12	46
Advocacy, information or referral	-	-	-	-

Other support	-	-	-	-
<b>Total</b>	<b>833</b>	<b>439</b>	<b>397</b>	<b>1,669</b>

- nil or rounded to zero

(a) Refers to persons receiving a Commonwealth/State Disability Agreement funded service. Relates to the number of people who received a service on the selected snapshot day. Note that it is possible for a person to utilise more than one service on a given day.

(b) Services that provide accommodation support to people with a disability and services that provide the support needed to enable a person with a disability to remain in their existing accommodation.

(c) Services that provide the support needed for a person with a disability to live in a non-institutional setting. Support for the basic needs of living such as meal preparation, dressing, transferring etc. are included under accommodation support.

(d) Services designed to provide opportunities for people with a disability to gain and use their abilities to enjoy their full potential for social independence. These include learning and lifeskills development, recreation and holiday programs and other community access. People who use these services are usually those not at school and not employed full time.

(e) Services specifically providing a short term break for families and other voluntary care givers of people with disabilities, to assist in supporting and maintaining the primary care giving relationship, while providing a positive experience for the person with a disability.

During 2001-02, there were 3,869 residential aged care places in Tasmania. Of these, 3,781 were occupied by residents, with nearly three quarters of these residents being females (source: Department of Health and Ageing). Nearly half of residential aged care places were located in the Greater Hobart-Southern Region.

The Community Aged Care Program supports people who are eligible for residential care but have a preference to stay at home. In 2001-02, there were 696 Tasmanians receiving this support.

### AGED CARE, Tasmanian local government areas - 2001-02

[Contents](#) >> [Regional maps](#) >> Statistical Regions

Much of the data found in **Regional Statistics - Tasmania** relates to Statistical Region Sectors, also referred to in this publication as 'Statistical Regions' or 'Regions'. Statistical Region Sectors are defined by the [Australian Standard Geographical Classification \(ASGC\)](#). The ASGC is used by the ABS for the collection and dissemination of geographically classified statistics.

Each of the Statistical Region Sectors in Tasmania contains one or more Local Government Areas. Local Government Areas do not cross Statistical Region Sector boundaries.

For more information on the ASGC, contact the Assistant Director, Area Classification, on telephone (02) 6252 5888, facsimile (02) 6252 8666, email [geography@abs.gov.au](mailto:geography@abs.gov.au) or by writing to PO Box 10, Belconnen, ACT 2616.
